Draft of an Ordinance

Presented by the Honorable M. VAN BREDA, *to the Legislative Council of this Colony.*

For providing that the Cape Flats and adjoining Downs are not destroyed; and for securing them against further injury from the drifting of the Sand.

WHEREAS the Government Lands, commonly called the Cape Flats and Downs, have, during the last thirty years, been occupied by various persons, who, without having obtained any licence or title thereto, have totally destroyed many parts thereof, by rooting up the Trees and Shrubs growing thereon; whereby not only the Sands have greatly accumulated, but threaten to lay the whole of that country waste; and whereby the difficulties of land-carriage to the Capital are considerably increased, and the existence of the Outspan Places and Watering Dams endaegered; and whereas it is expedient to prevent the continuance of this injury to public property:

No Trees, Bushes, or Shrubs to be cut or rooted up in the Cape Flats or Downs.

I. Be it therefore enacted by the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, That from and after the passing of this Act, it shall not be lawful for any person whomsoever, to pull up, root out, or chop off, or dig up any Trees, Shrubs, or Bushes, growing on and upon the Government Lands commonly called the Cape Flats or Downs, save and except only Travellers at or about the Outspan Places, for their use on their journeys.

Penalty of £1 to £5 for every such offence.

II. And be it further enacted, That any person who shall be convicted before a competent Court, of having pulled up, rooting out, or chopped off, or dug up, save and except as aforesaid, any such Trees or Bushes, shall be liable to a fine of not less than £1 and not exceeding £5.

Thatching Reeds or Rushes excepted.

III. And be it further enacted, That nothing therein contained shall tend to prevent any person from cutting Reeds or Rushes used for thatching; provided always, that they shall have taken out and paid for a Licence granting them leave for that purpose, as hereafter provided for.

No Sheep, Goats, or Pigs, allowed to graze in the Cape Downs or Flats.

IV. And be it further enacted, That it shall not be lawful for any person to graze any flocks of Sheep, Goats, or Pigs, upon the aforesaid Government Lands, save and except such persons as are in the act of driving Sheep, Goats, and Pigs to market.

Penalty from £1 to £5 for every offence.

V. And be it further enacted, That any person who shall be found so grazing Sheep, Goats, or Pigs upon any of the aforesaid Government Lands, save and except for the purpose as before mentioned, shall upon conviction, be liable to a fine of not less than £1 and not exceeding £5.

Horses, Mules, and Horned Cattle excepted.

VI. And be it further enacted, That nothing herein contained shall be construed to prevent any person from grazing Horned Cattle, Horses, or Mules, upon the aforesaid Government Lands; provided always, that they shall have taken out and paid for a Government Licence, granting them leave thereto.

Commissioner of Stamps empowered to grant Licenses for Grazing.

VII. And be it further enacted, That it shall be lawful for the Commissioner of Stamps in Cape Town, to grant to all persons applying for the same, a Licence for grazing Cattle as aforesaid upon the said Government Lands, which aforesaid Licence shall be upon a Stamp of 1s. and the costs of which Licence shall in no ways exceed the sum of £1 10, and which aforesaid Licence shall be so granted for a term or space of one year; and any person so grazing or occupying the aforesaid Government Lands, with his Cattle as aforesaid, without any such Licence, shall, upon conviction, be liable to a penalty of not less than £1, and not exceeding £5.

Commissioner of Stamps to grant Licenses for cutting Thatching Reeds or Rushes.

VIII. And be it further enacted, That it shall be lawful for the Commissioner of Stamps in Cape Town, to grant to all persons applying for the same, a Licence for cutting Reeds or Rushes *for thatching*, upon the said Government Lands, which said Licence shall be upon a Stamp of 6d. and which Licence shall be paid for at and after the rate of 9d. for every 1,000 bundles intended to be cut, and it shall not be lawful for any person to cut any Reeds or Rushes as aforesaid, upon any of the said Government Lands, without such Licence, and any person so offending, shall, upon conviction, be liable to a penalty of not less than £1, and not exceeding £5,

Line of Demarcation of Government Lands in the Downs or Flats.

IX. And be it further enacted, That for the purpose of this Ordinance, all the Government Lands situate to the Eastward of the Salt and Swart River, and of the Zand Valley near Muizenburgh, and from thence to the banks of the Knils River and Eerst River to the Westward, shall be deemed to be included in the general term of the Cape Flats and Downs as aforesaid.

No person to graze upon or occupy any part of the Outspan Places.

X. And be it further enacted, That it shall not be lawful for any person, although holding such Licences as aforesaid, to make use of or occupy any Lands already reserved or hereafter to be appropriated as Outspan Places, or to make use of the Public Watering Dams, which are made by or at the direction of the Civil Commissioner, or other competent authority in each District, for the purpose of grazing and watering the Cattle of Travellers on the road to and from the Capital or its vicinity; and it shall be lawful for any person finding any Cattle so trespassing upon the Lands of the aforesaid Outspan Places, to take such Cattle to the nearest Pound, and the person owning such Cattle, shall be moreover liable, upon conviction, to a penalty or fine not less than £1, and not exceeding £5.

Civil Commissioners of the Cape and Stellenbosch Districts to fix the extent of Outspan Places.

XI. And be it further enacted, That the Civil Commissioners of the Cape and Stellenbosch Districts are hereby directed in their respective Districts, to fix the boundaries of the several Outspan Places as at present existing within the said Government Lands, and to mark and define the extent thereof in such manner as to afford to the Community at large the full effect and use of the said Outspan Places; but that in no instance the extent of the said Outspan Places shall exceed an extent of

Commissioner of Stamps to transmit Returns to the Civil Commissioners of the Cape and Stellenbosch Districts, of all persons taking out Licences for grazing and cutting Thatching Reeds.

XII. And be it further enacted, That it shall be lawful for the aforesaid Commissioner of Stamps, from time to time, and not less than once at the end of every month, to transmit to the Civil Commissioner of the Cape and Stellenbosch Districts, the names and residence of all persons having taken out Licences for grazing Cattle and for cutting Thatching Reeds and Rushes as aforesaid; and the aforesaid Civil Commissioners shall from time to time transmit Copies of the aforesaid Lists to the Field-cornets of the several Field-cornetcies embracing any part of the aforesaid Flats and Downs.

Field-cornets enjoined to watch the observance of these Regulations.

XIII. COMMERCIAL RETROSPECT.

From the London Mercantile Journal, January 19—26.

Such has been the prompt assistance offered to the sufferers from the Fire at New York, by the State, the Municipal Corporation at New York, and the United States Bank, that all confidence in the pecuniary capabilities of the sufferers to meet their Bills has been restored, and no interruption to intercourse exists, save that created by the confusion from the fire. The energy and liberality shown by the United States to their suffering countrymen, have called forth, as they deserve, the most general and unqualified praise.

The English Iron trade continues singularly brisk, and during the last twelve months Iron has advanced 209 per cent. and is likely to be higher.

The quarterly statement of the accounts of the Bank of England, from the 26th October 1835 to the 12th Jan. 1836 inclusive, show:

	Liabilities.		Assets.
Circulation	17,262,000	Securities	31,954,000
Deposits	16,169,000	Bullion	7,076,000
	£33,431,000		£39,030,000

Accounts from the manufacturing districts continue to represent those parts as very busy, and very prosperous.

Advices from Batavia state that the imports to Java, of merchandize, in one month amounted to £85,000 sterling, of which £35,000 were English articles, paying a duty of 25 per cent.; and £20,000 of Dutch articles, paying no duty.

The Receipts of the Custom-house at Dunkirk during the year 1835, were 8,000,044,78 francs, being 353,167,08 more than those of 1834.

Government, it is said, are about to issue a fourpenny silver coin, which when taken in its connection with half-crowns, shillings, and sixpences, will give great facilities to monetary transactions.

TEA.—The large public sales amounting to 67,000 packages, which commenced on Tuesday last, are proceeding very heavily, the great bulk of the teas consist of very ordinary quality, and the trade being averse to purchase these kinds, they have been nearly all taken in and withdrawn at a decline on former rates of 1d. to 2d. per lb. the fine sorts are selling at fully the prices of the former sales. Bohea, Canton, has been sold at 10d. Fokein, ditto, 1s. to 1s. and 3d. Congou, fine, 1s. 8d. to 2s. 3½d. common, 11d. to 1s. ½d. Campoi 10d. Twankay, good, 1s. 4½d. to 2s. 4d. Hyson, common, 2s. 3d. to 2s. 5d. middling to good, 2s. 6d. to 3s. 6d. Hyson skin, 11d. to 1s.

WOOL.—In the low qualities of Wool, more particularly Russian, there has been an extensive business done for home consumption; Spanish and German is much wanted; but the scanty stocks now remaining in first hands not amounting to more than 2000 bales, which is not equal to above a week's consumption, prevents orders of any consequence from being transacted. Three vessels are shortly expected from our Colonies with about 1000 bales, being the remains of the old clip; 150 bales of which belong to the Australian Company, all of which, as soon as they arrive, will be offered at public sale—which will no doubt find ready buyers, being much wanted; the combers and spinners holding small stocks: supplies of the new clip will not arrive before May or June, when it is expected that large public sales will take place. The demand for English continues good, at prices which have ruled for a long time past.

MANCHESTER.—The markets, this week, have been unusually brisk. Ginghams of every description continue in good request, and prices are a trifle higher; the demand for twilled calicoes has revived, particularly for good qualities, which are higher in prices; printing calicoes are very brisk at 3d. per piece advance in price; quilting, counterpanes, fustians, &c. of every description, are better to sell than they were a month since.

ROCHDALE.—The Flannel market to-day has been well attended, and an excellent assortment of goods were offered for sale; middle qualities were nearly all sold in good time; fine flannels were in pretty good demand, and prices keep firm; low goods, grays and dyed flannels were more after than for the last month. The Wool market was more lively than for several months previous, and more business was done; middle qualities of wool sold very well and at higher prices; other sorts were a shade higher.

NOTICE TO MARINERS.

Hydrographical Office, Admiralty, Dec. 1, 1835.

The Committee of Merchants appointed by His Majesty's Government for superintending the Grant annually voted by Parliament for the Support and Maintenance of the Forts and Factories on the Gold Coast of Africa, have transmitted to the Lords Commissioners of the Admiralty the following Information:—

LIGHT AT CAPE COAST CASTLE,
(Western Coast of Africa.)

Preparations are now making for exhibiting a LIGHT at Fort William, Cape Coast Castle, and Notice is hereby given, that the Light will be exhibited on the 1st October next, and thenceforth continued every Night from Sun-set to Sun-rise, for the guidance of Vessels bound for the Forts of St. George d'Elmina, Cape Coast Castle, Anomaboe, or the adjacent Settlements. This Light will burn at an elevation of 204 feet above the medium level of the Sea, and at a distance from the Beach of 709 yards. It will be visible to Vessels in every direction, whether approaching or sailing parallel to the line of Coast.—The Light will be a steady White Light, and will be the only one upon the Coast.

In steering for the Anchorage of Cape Coast Castle, Vessels ought to bring the Light to bear North three-quarters West, keeping the Lead going; and to anchor in six or six and a half fathoms water; the Light being then distant from the Vessel about two miles.

In ordinary weather the Light will be visible at the distance of about seven leagues, and will be of great service in preventing Vessels being carried to Leeward of their Port by the strong South-westerly Current which runs off the Coast about ten months in the year.

(Signed) GEORGE MACLEAN, President.

REPORT

OF THE COMMITTEE OF THE COMMERCIAL EXCHANGE.

Read at the ANNUAL GENERAL MEETING of Shareholders and Members, on Monday, the 25th April 1836.

THE Financial Affairs of the Proprietors continue to maintain the same favourable aspect which they presented during the two preceding years, viz.:—the Ordinary Receipts of the twelve Months being about equal to the whole expenses of the same period, the Rents of the Public Library, the Mason's Lodge, and the Auction Room, remain available for the payment of an Annual Dividend to the Shareholders,—the Committee have, therefore, again the satisfaction of recommending to the Proprietors to declare another Dividend of £1:10:0 per Share.

In adverting to the Commercial Occurrences of the Year, the principal subject which the Committee have to revert to, for the information of the Members of the Establishment, is the successful progress which has at length been made in endeavouring to effect an improvement in our Colonial System of Banking.

The progressive increase in the Commercial and Agricultural Transactions of the Colony, and the importance to which its Eastern Districts are so rapidly advancing, have long since rendered it highly necessary that the Banking Business which has hitherto been confined to that of the Government, should be extended by the formation of a Bank established on the soundest principles, while the vast increase of Capital which may shortly be expected to take place by the payment of the Slave Compensation Money, has led to the adoption of measures both here and at home, for the immediate formation of a Joint Stock Bank in the Colony.

It was ascertained in the early part of last year, that persons in London, wholly unconnected with the Cape, had applied to the British Government for a Charter of Incorporation for the Establishment of a Bank at the Cape of Good Hope. On this fact coming to the knowledge of the Cape Trade Society, they addressed a Letter to the Lords Commissioners of the Treasury, pressing upon their Lordships' attention, the want of Banking Facilities at the Cape, the insufficiency of the Government Bank of the Colony to satisfy the reasonable wants of the Public, and the causes which hitherto opposed the endeavours of the Colonists to succeed in the establishment of Joint Stock Banks; informing their Lordships that the Society were then endeavouring, in conjunction with the Inhabitants of the Colony, to form a Bank for themselves, under a Charter of Incorporation, and concluding with an earnest appeal to the Treasury to withhold a Charter from persons resident in Great Britain, *not connected with the Colony*.

The Society then proceeded to frame certain Resolutions, which they transmitted to the Cape for the approval of the Committee, who, on their receipt, being convinced that if prompt measures were not immediately adopted for forming a Bank for ourselves, we should at no very distant period find its advantages usurped by persons having no interest whatever in the Colony, immediately took the necessary steps for the establishment of a Joint Stock Bank under the Sanction of a Colonial Ordinance.

The principles of this Bank, the Ordinance for which is now before the Legislative Council, are those of the most successful institutions of the same kind at home, and are calculated to afford ample security to the Public, and a profitable investment to the Proprietors—as has been shown by the best modern writers on the subject. The Committee, therefore, very confidently entertain that a conviction that the Cape of Good Hope Bank will fully realise the expectation of its supporters, by affording those facilities to our monetary system, the want of which has been so long and so loudly deplored, and that no one who is acquainted with the modern principles of banking, as they are detailed in the many excellent treatises of eminent practical writers of the present day, can fail to see the stability of the foundation and the general utility of the system on which Joint Stock Banks are established.

The Committee have to regret that no communication has been received from the home Government in reply to a Dispatch of His Excellency the Governor, relative to the resumption of the Works at the New Pier, but that that important undertaking is allowed to remain unfinished without any apparent intention on the part of Government, either to complete it, or to permit its being completed by the Public.

The new Rates of Wharfage which have been for some time in operation were established *experimentally*—it may be remembered—at the suggestion of a former Committee, for the double purpose of defraying the necessary expenses incurred for keeping the Wharf in repair, and for compensating the Government for the abolition of the Market Dues on Colonial Produce. The Committee would therefore suggest that it may be advisable for their successors to inquire whether these rates may not admit of some modification without effecting the objects they were originally designed to accomplish.

The Regulations adopted some time since by the Government of St. Helena, effecting most materially the con-

sumption of Cape Wine in that Island, formed a subject of representation to the Colonial Government with the Committee of 1824-5. Your Committee have now the pleasure to report, that the Secretary of State for the Colonies has directed His Excellency the Governor to assure the Merchants of Cape Town, that the subject of their representation should be kept in view when the transfer of that Island to His Majesty's Government should take place.

The Custom-house Returns, which are usually furnished by that Department to the Exchange every quarter, are deficient this year for the three months ending the 5th April, in consequence of the illness of the Officer who has been in the practice of extracting them from the Books, consequently the Committee are enabled to introduce an abstract of the Returns for the preceding three quarters only, into their Report.

THE following Notice is published for general information, at the request of the Honorable the Governor of Bengal:—

NOTICE.

Abandonment of the Light at Point Palmyras, with Instructions for Vessels seeking a Pilot for the River Hooghly.

The encroachment of the Sea, on the Islands of Mypurrah, commonly called Point Palmyras, rendering it necessary to abandon the Light at that place, notice is hereby given, that the Light will be forthwith abandoned accordingly; and that from the 15th of March, till the 15th of September, the period during which the Pilot Vessels cruize off Point Palmyras, until further notice, the Senior Pilot at the Station will burn a Blue Light, and immediately after fire a Rocket, every half hour during the night, commencing at 7 P. M. and ending at 5 A. M.

2. The Vessel, on board of which such Senior Pilot may be, will be instructed to take up a position, the Point bearing W. by N. distant 18 miles, and in 18 or 20 fathoms water, and to keep in that position during the night as near as possible.

3. The simultaneously firing a Rocket with the burning of a Blue Light is ordered to distinguish the Pilot's Station off the Point from the Floating Light Vessel at the entrance of the Eastern channel.

4. The Pilot Vessels during the above period cruize in the day off Point Palmyras, anchoring during the night in a line East and West in Latitude 20° 42' to 20° 46' N. with the Point bearing West to W. by S.; but the Senior Officers' Vessel showing the Blue Light and firing the Rocket will be stationed as above. If, however, about the beginning of September the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and may be found in a line between the Point and the Floating Light Vessel at the entrance of the Eastern Channel; and Vessels approaching the Station about that period with the wind hanging to the Eastward, or weather having a threatening appearance, are accordingly recommended on no account to approach the Point, but the rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel —and it is further notified that after the 15th September, no Pilot Vessel will be found to the Westward of the Western Sea Reef.

5. From the 15th September to the 15th March the Pilot Vessels cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the night East and West of each other in Latitude 21° to 21° 10' North.

6. Vessels approaching the Station on seeing the Pilot Vessels are requested, in the day, to make for that Vessel on board of which they will see a large Red Flag flying at the main, whenever they can do so without great inconvenience or delay. In the night, the Vessel having the next turn Pilot on board is ordered, between the 15th of March and the 15th September, while the Vessels cruize off Point Palmyras, to burn a Maroon every half hour during the night, or one quarter of an half hour after the burning of the Blue Light and the firing of the Rocket; and between the 15th September and 15th March at the Floating Light Station at the entrance of the Eastern Channel every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood however that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot an board, night or day, without referring to any turns or rotations, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,
C. B. GREENLAW, Secretary.

THE CAPE OF GOOD HOPE

Published by Authority.

FRIDAY, MAY 20, 1836.

Colonial Office, Cape Town, 11th May 1836.

THE following Notice is published for general information, at the request of the Honorable the Governor of Bengal:—

NOTICE.

Abandonment of the Light at Point Palmyras, with Instructions for Vessels seeking a Pilot for the River Hooghly.

The encroachment of the Sea, on the Islands of Mypurrah, commonly called Point Palmyras, rendering it necessary to abandon the Light at that place, notice is hereby given, that the Light will be forthwith abandoned accordingly; and that from the 15th of March, till the 15th of September, the period during which the Pilot Vessels cruize off Point Palmyras, until further notice, the Senior Pilot at the Station will burn a Blue Light, and immediately after fire a Rocket, every half hour during the night, commencing at 7 P. M. and ending at 5 A. M.

2. The Vessel, on board of which such Senior Pilot may be, will be instructed to take up a position, the Point bearing W. by N. distant 18 miles, and in 18 or 20 fathoms water, and to keep in that position during the night as near as possible.

3. The simultaneously firing a Rocket with the burning of a Blue Light is ordered to distinguish the Pilot's Station off the Point from the Floating Light Vessel at the entrance of the Eastern channel.

4. The Pilot Vessels during the above period cruize in the day off Point Palmyras, anchoring during the night in a line East and West in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; but the Senior Officer's Vessel showing the Blue Light and firing the Rocket will be stationed as above. If, however, about the beginning of September the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and may be found in a line between the Point and the Floating Light Vessel at the entrance of the Eastern Channel; and Vessels approaching the Station about that period with the wind hanging to the Eastward, or weather having a threatening appearance, are accordingly recommended on no account to approach the Point, but the rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel —and it is further notified, that after the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

5. From the 15th September to the 15th March the Pilot Vessels cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the night East and West of each other in Latitude 21° to 21° 10' North.

6. Vessels approaching the Station on seeing the Pilot Vessels are requested, in the day, to make for that Vessel on board of which they will see a large Red Flag flying at the main, whenever they can do so without great inconvenience or delay. In the night, the Vessel having the next turn Pilot on board is ordered, between the 15th of March and the 15th September, while the Vessels cruize off Point Palmyras, to burn a Maroon every half hour during the night, or one quarter of an half hour after the burning of the Blue Light and the firing of the Rocket; and between the 15th September and 15th March at the Floating Light Station at the entrance of the Eastern Channel every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood however that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot an board, night or day, without referring to any turns or rotations, and that this latter is only allowed when no delay is occasioned thereby.

Colonial Office, Cape Town, 11th May 1836.

THE following Notice is published for general information, at the request of the Honorable the Governor of Bengal:—

NOTICE.

Abandonment of the Light at Point Palmyras, with Instructions for Vessels seeking a Pilot for the River Hooghly.

The encroachment of the Sea, on the Islands of Mypurrah, commonly called Point Palmyras, rendering it necessary to abandon the Light at that place, notice is hereby given, that the Light will be forthwith abandoned accordingly; and that from the 15th of March, till the 15th of September, the period during which the Pilot Vessels cruize off Point Palmyras, until further notice, the Senior Pilot at the Station will burn a Blue Light, and immediately after fire a Rocket, every half hour during the night, commencing at 7 P. M. and ending at 5 A. M.

2. The Vessel, on board of which such Senior Pilot may be, will be instructed to take up a position, the Point bearing W. by N. distant 18 miles, and in 18 or 20 fathoms water, and to keep in that position during the night as near as possible.

3. The simultaneously firing a Rocket with the burning of a Blue Light is ordered to distinguish the Pilot's Station off the Point from the Floating Light Vessel at the entrance of the Eastern channel.

4. The Pilot Vessels during the above period cruize in the day off Point Palmyras, anchoring during the night in a line East and West in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; but the Senior Officer's Vessel showing the Blue Light and firing the Rocket will be stationed as above. If, however, about the beginning of September the wind comes from the Eastward, or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and may be found in a line between the Point and the Floating Light Vessel at the entrance of the Eastern Channel; and Vessels approaching the Station about that period with the wind hanging to the Eastward, or weather having a threatening appearance, are accordingly recommended on no account to approach the Point, but the rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel —and it is further notified, that after the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

5. From the 15th September to the 15th March the Pilot Vessels cruize during the day between Saugor Sand and Western Sea Reef, anchoring in the night East and West of each other in Latitude 21° to 21° 10' North.

6. Vessels approaching the Station on seeing the Pilot Vessels are requested, in the day, to make for that Vessel on board of which they will see a large Red Flag flying at the main, whenever they can do so without great inconvenience or delay. In the night, the Vessel having the next turn Pilot on board is ordered, between the 15th of March and the 15th September, while the Vessels cruize off Point Palmyras, to burn a Maroon every half hour during the night, or one quarter of an half hour after the burning of the Blue Light and the firing of the Rocket; and between the 15th September and 15th March at the Floating Light Station at the entrance of the Eastern Channel every hour, and in thick weather every half hour, and Vessels are requested in like manner to seek their Pilot in the night from that Vessel; it being understood however that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot an board, night or day, without referring to any turns or rotations, and that this latter is only allowed when no delay is occasioned thereby.

BILL

For the creation of Municipal Boards in the Towns and Villages of this Colony, on which the Local Regulations of each shall be founded.

Presented by His Excellency the GOVERNOR to the Legislative Council.

WHEREAS it is expedient that due provision should be made for the better regulation of certain matters and things of a local nature within the several Districts, Towns, and Villages in this Colony, and that Municipal Boards should be constituted and established therein: Be it therefore enacted by the Governor of the Colony of the Cape of Good Hope, by and with the advice and consent of the Legislative Council thereof, that from and after the day of it shall and may be lawful for any Resident Magistrate, or Justice of the Peace, within this Colony, and they are hereby required, upon a requisition made to them in writing to that effect by any number of resident Householders, not less than twenty-five, and severally paying taxes to an amount exceeding *six shillings* sterling per annum, and resident respectively within half a mile of any one central place which shall be specified in the said requisition, to call a meeting of Householders paying such amount of Taxes as aforesaid, and resident within the limits aforesaid, to determine whether Municipal Regulations shall be adopted for such proposed Municipality.

And be it further enacted, That every such resident householder as aforesaid, who shall attend and be personally present at any such meeting as aforesaid, shall have, and be entitled to, one vote, and no more.

And be it further enacted, That such person as may be elected by the persons present entitled to vote, shall preside as chairman at such meeting; and that, if any controversy shall arise at any such meeting, as to the qualification or right of voting or eligibility of any person claiming to vote, or as to the qualification or eligibility of any candidate, such controversy shall be determined by the chairman presiding at such meeting.

And be it further enacted, That the chairman who shall preside at any meeting assembled as hereinbefore directed, shall read, or cause to be read, the requisition whereupon the meeting shall have been summoned, and shall require the persons assembled thereat, to determine, by majority of votes, whether municipal regulations shall, or shall not, be adopted and acted upon within the said intended municipality: Provided nevertheless, that it shall be lawful for the majority of the inhabitants present, to adjourn such meeting from time to time.

And be it further enacted, That if at any such meeting it shall be determined by a majority of votes, ascertained as aforesaid, that municipal regulations shall be adopted, then and in such case the resident magistrate or justice of the peace, who called the said meeting, shall forthwith call another meeting of such resident householders as aforesaid, to be holden within seven days thereafter, in order to elect and appoint a committee of so many of such resident householders as aforesaid, to frame and draw up such local regulations as the said meeting shall deem expedient.

And be it further enacted, That the committee so to be elected and appointed, shall be chosen by such resident householders assembled at such meeting as last aforesaid, by majority of votes; and every such resident householder as aforesaid present at any such meeting, shall have, and be entitled to, one vote, and no more.

And be it further enacted, That the committee, chosen at any such meeting, shall forthwith proceed to frame and draw up such municipal regulations as they may deem expedient, and shall submit the same, when prepared, to a meeting of such resident householders as aforesaid: Provided always, that such committee shall submit such regulations to such meeting as aforesaid, within one month from the date of their appointment, otherwise the said committee shall be *ipso facto* dissolved, and a new committee shall then and in every such case be chosen in manner and for the purpose aforesaid.

And be it further enacted, That it shall be the duty of the committee so chosen as aforesaid, to divide the municipality into wards, if necessary, and to fix the number of commissioners for the municipality or the several wards thereof, and to frame regulations for the leading and distribution of water,—where no such regulations exist,—and for the enforcement or amendment of existing regulations; for the erection and care of walls, water-courses, bridges, dams, sluices, or other works connected therewith,—for making or repairing streets or roads,—for watching, cleansing, paving, and lighting, the same,—for establishing markets, and for regulating weights and measures,—for preventing and abating nuisances,—for the observance of the Sabbath, and for any other purposes of local convenience.

And be it further enacted, That one week's notice at the least shall be given by such committee as aforesaid, by a printed or written notice affixed to some conspicuous place or places of public resort, of the day and hour of holding such meeting as last aforesaid.

And be it further enacted, That at any such meeting as last aforesaid, any resident magistrate or justice of the peace residing at or near such proposed municipality, shall preside as chairman: Provided however, that such magistrate or justice shall not be a member of the said committee, in which case any such resident householder as aforesaid, present at such meeting, may be elected by majority of votes in manner aforesaid, to preside as chairman at such meeting. And the chairman at such meeting shall have, and be entitled to, a casting vote, and shall determine any controversy which may arise as to the qualification or right of voting, or eligibility of any person claiming to vote at such meeting.

And be it further enacted, That every such resident householder as aforesaid, present at such meeting, shall be entitled to one vote, and no more.

And be it further enacted, That at such meeting the question shall be put by the chairman on each and every clause contained in the regulations submitted by the committee, seriatim, and afterwards on the whole of the regulations jointly; and a majority of votes shall decide whether such clause, or the whole of the regulations jointly, as the case may be, shall or shall not be adopted.

And be it further enacted, That the regulations adopted at such meeting shall be forthwith inserted in the English and Dutch languages in the *Government Gazette*, and a copy thereof, in English, certified by the chairman presiding at such meeting, shall be transmitted to the Governor of the Colony for the time being, within one month after they shall have been so adopted as aforesaid. And should such regulations be approved of by the said Governor, notice thereof shall be given by proclamation to be by him made in that behalf in the *Government Gazette;* and the said regulations shall, on such confirmation and publication, become as legal, valid, and effectual to all intents and purposes whatsoever, as if the same had been inserted herein.

And be it further enacted, That so soon as such proclamation as aforesaid shall have appeared in the *Government Gazette*, the said resident magistrate or justice of the peace shall, and he is hereby required to give weeks' notice in the manner prescribed by the ninth section of this Ordinance, of a meeting of householders residing within the limits of such municipality to be holden for the election and choice of so many commissioners as shall have been specified in the said regulations to carry the same into effect; and the said commissioners for the municipality or the wards thereof respectively, shall be elected by a majority of votes; and the said magistrate or justice shall preside as chairman at such meeting, and shall have and be entitled to a casting vote, and shall determine upon the qualification or right of voting of any person at such meeting.

And be it further enacted, That any person residing within the municipality, and being the proprietor of a house situate within the same, and who shall pay annually a sum of not less than £ sterling in taxes, shall be eligible to be elected a commissioner for the purposes of this Ordinance, and shall be proposed at the said meeting by some person duly qualified to vote thereat, and shall be seconded by some other person in like manner qualified.

And be it further enacted, That every person who shall be elected a commissioner in any municipality in manner aforesaid, shall go out of office at the end of the third year from the said first election; and in place of such commissioners so going out of office a like number of other commissioners, to be elected as hereinafter provided, shall come into office, and remain in office for three years; and at the expiration of such last mentioned term of three years, shall in like manner go out of office and be succeeded by other commissioners, who shall remain in office for a like term of three years, and so on for ever: provided always, that any of such out-going commissioners shall be re-eligible, and may be re-elected, and shall in such case continue to act and remain in office, any thing herein contained to the contrary notwithstanding.

And be it further enacted, That on the first Monday immediately preceding the day on which any such term of three years shall expire, a meeting shall be holden for the election of commissioners for the three years next succeeding, and the chairman appointed to preside at such election, shall proceed in such manner as the chairman, at the first meeting for the election of commissioners to be held under this Ordinance is hereinbefore directed to proceed in the election of the commissioners to be first appointed for the execution of this Ordinance, and shall decide on questions which may arise as to the eligibility or qualification of any person whatsoever, and as to all matters whatsoever connected with the said election, and shall declare the result of the same as aforesaid.

And be it further enacted, That in case any commissioner shall die or become disqualified by change of residence or otherwise, or shall neglect to act, and in case of any casual vacancy happening in any manner whatever, so that the number of commissioners shall be reduced to less than two thirds of the number fixed by the municipal regulations, notice shall be immediately given by the acting commissioners to the resident magistrate, or any justice of the peace, residing in or near the municipality, who shall forthwith in the manner directed by this Ordinance, call a meeting of the inhabitants as aforesaid, for the purpose of filling up such vacancy or vacancies.

And be it further enacted, That the said commissioners shall meet at such times as are specified in the municipal regulations, at some convenient place or office previously publicly notified; and at such meetings it shall be lawful for any inhabitant to appear there and prefer any matter of complaint which he may think proper to make concerning any matter or thing done by force or in pursuance of, or under pretence of the provisions of this Ordinance, or the municipal regulations.

ORDINANCE

Enacted by the Governor of the Cape of Good Hope, with the Advice and Consent of the Legislative Council thereof,

For appointing and authorising certain Persons to be Commissioners, and to act as Guardians to Emigrants, being Minors, sent to this Colony from the United Kingdom, by a Society known by the style of "The Children's Friend Society."

WHEREAS a Society, entitled "The Children's Friend Society," has lately been formed in London, for the purpose of affording relief to poor and destitute Children, and the said Society has formed an Establishment for the care, maintenance, and education of such Children, with a view of the binding them as Apprentices in England, or to respectable Individuals in the Colonies: And whereas, in order that Persons in this Colony desirous of obtaining the Services of Children from the said Institution may be enabled to exercise a legal authority over them, it is necessary that some Persons be authorized to act as Guardians for and on behalf of such Children, with power to apprentice or otherwise provide for them as to their said Guardians may appear most expedient:

II. Be it therefore enacted, That from and after the passing of this Ordinance, SAMUEL BAILEY, Esq. Surgeon of Somerset Hospital,—Rev. JAS BECK, Missionary,—EWAN CHRISTIAN, Esq. Merchant,—JOHN FAIRBAIRN, Esq—JAMES ROSE INNES, Esq. A.M. Professor of the South African College,—JOHN MARSHALL, Esq. President of the Discount Bank,—JOHN MURRAY, Esq. M.D. Deputy Inspector General of Hospitals,—Rev. JOHN PEARS, A.M.—Rev. JOHN PHILIP, D.D. Director of London Missions in South Africa,—Rev. III. And be it further enacted, That it shall not be lawful for the said Commissioners, to receive, or take under their charge, any Children, either male or female, sent from the United Kingdom to this Colony, by the Society beforementioned, unless the said Society shall transmit a List of such Children, signed by

the Secretary thereof, in which shall be particularly specified the Names and Ages, and, if known, the Parentage of each and every Child so sent; and the statements in such Lists shall be considered and taken as *prima facie* evidence of the facts therein contained.

IV. And be it further enacted, that on the arrival of any Children sent out in the manner aforesaid, and from time to time, so often as occasion may require, it shall be lawful for the said Commissioners, or any one of them, duly authorized to act in the name and on behalf of the said Commissioners, to bind such Children as Apprentices to the Persons at whose instance they may have been sent out, or to such other Persons as may be desirous of obtaining their services, and who shall have been approved of by the said Commissioners,—such Apprenticeship to continue in force until the Child, if Male, shall have attained the Age of Twenty-one Years, and, if Female, until such Female shall have attained the age of Twenty-one Years, or shall be married, whichever shall first happen,—except in such case in which it shall be considered expedient by the said Commissioners to limit the Apprenticeship to a shorter period;—and the said Commissioners, or any one of them, acting on behalf and by authority of the rest, shall jointly with the Master or Mistress of the said Apprentice, execute and sign a form of Indenture, to contain such provisions and covenants for the protection of the interest of such Apprentice as to the said Commissioners may appear desirable,—which said Indenture shall be good, valid, and binding, to all intents and purposes;—and the said Apprentices and their Masters or Mistresses shall be subject and liable to the Laws now in force, or which may hereafter be made, relating to Apprentices or indentured Servants, other than apprenticed Laborers.

V. And be it further enacted, That it shall be the duty of the said Commissioners to afford all lawful and necessary protection to the said Apprentices, and enforce the performance of the covenants contained in any Indenture for the benefit of such Apprentices,—and if any Person shall neglect or refuse to perform the conditions of such Indenture made in pursuance of this Ordinance, he shall be liable and subject to an action upon such Indenture at the suit of the said Commissioners, as Guardians for such Apprentice; and if, on being sued for any neglect of said conditions, the Commissioner shall obtain a Judgment against him or her, such person shall not show cause to the satisfaction of the Court awarding such Judgment for such neglect or refusal, he or she shall pay to the said Commissioners such Costs of Suit as any Judge or Magistrate shall in his discretion allow; and the said Commissioners shall and they are hereby authorised to bring or defend any action or suit touching or concerning any of the property, rights, or claims of the said Commissioners or their Wards, in the name of "the Commissioners for the Guardianship of Juvenile Emigrants," without specifying the names of the Commissioners, and without other description, and no action shall abate by reason of the Death or going out of Office of any Commissioner,—and that whenever it shall be necessary for the said Commissioners to execute any Deed or Instrument in writing,—such Deed or Instrument shall be signed in the name of the Commissioners by some Person or Persons, appointed for that purpose by such Commissioners, and every such Deed or Instrument signed in manner herein provided, shall have the same effect in law as if it had been signed by all the Commissioners.

VI. And be it further enacted, That upon the Death, Resignation, or Departure from the Colony of any of the Commissioners aforesaid, it shall be lawful for the remaining Commissioners, to elect some fit and proper Person to fill up the vacancy so created, and they are hereby required to complete the said election within twenty-eight days from the period of such vacancy taking place,—and within fourteen days after the completion of the said election to publish the name of the Commissioner so elected in the *Government Gazette* of this Colony, for the information and guidance of all Persons whom it may concern.

VII. And be it further enacted, That the said Commissioners shall not be liable for any expenses incurred in bringing out or supporting the said Children, further than they themselves shall expressly undertake and become responsible for,—and that every Indenture made under this Ordinance, shall continue to be valid and binding upon and in favor of the successors of such Commissioners to be appointed as aforesaid.

VIII. And be it further enacted, That it shall be lawful for the said Commissioners from time to time as it may become necessary, to hire apartments, to provide furniture, books, and other necessaries, and to appoint Officers and Servants necessary for the transaction of the buniness of the said Commissioners, and to defray the costs and charges of the same respectively out of any fund which may belong, or accrue to the said Commissioners as aforesaid.

And whereas by reason of the Caffre War, the Governor of the Colony was necessarily absent and prevented from administering in person, the ordinary affairs of the Government of the Colony;

And whereas during the aforesaid absence of the said Governor, the ordinary affairs of the Government were administered by the Hon'ble Col. JOHN BELL, C. B., by and with the advice and consent of the Executive Council, under the style of the Provisional Government;

And whereas certain Rules, purporting to be framed by the Governor of the Cape of Good Hope, by and with the advice of the Legislative Council thereof, for the internal regulation of, and discipline in, places of safe custody and correction at the Police Settlements or Stations of the several Special Districts of the Colony, sanctioned by the Provisional Government, during the absence of the said Governor, were published on the 15th day of January 1835;

Several instances having occurred, wherein a material difference has been found between the quantity of Bottled Wine specified in the Cocket, as having been shipped from the United Kingdom to the British Colonies, and the accounts taken thereof by the proper officers at the time of landing,—it is ordered, with reference to the great variation in the capacity of Wine Bottles,—that the quantity of Wine in Bottles entered for the Drawback, both to the Colonies and all other places, should, in every case, be ascertained by actual experiment, and the quantity inserted by the Searchers, on the Cocket and Bill.

ORDINANCE

Enacted by the Governor of the Cape of Good Hope, with the Advice and Consent of the Legislative Council thereof,

For defining the Limits of, and securing from injury, the CAPE FLATS and DOWNS.

WHEREAS the Provisions of a Publication, bearing date the 29th September, 1803, for the preservation of the Tract of Country commonly called "The Cape Flats and Downs," have been found to be insufficient; and whereas many parts of the said Lands are unlawfully used and occupied by various Persons, who, by rooting up the Bushes growing thereon, have caused great damage and injury to the said Lands, inasmuch as the drifting Sands have so greatly accumulated as to threaten to lay waste great part of that Country, and the Farms contiguous thereto, thus increasing the difficulties of Land Carriage, and endangering the maintenance of the Baiting or Out-span Places and Watering Dams established on the Lines of Public Roads through those Flats and Downs; and whereas it is expedient to fix and define the Limits of the said Tract of Country, and to provide for its security from further damage and injury: Be it therefore enacted by the Governor of the Cape of Good Hope, with the Advice and Consent of the Legislative Council thereof, that from and after the 1st of July next, the Publication of the Governor J. W. JANSSENS, in Council, bearing date the 29th September, 1803, shall be, and the same is hereby repealed, save in so far as the same repealed the several Laws and Ordinances therein set forth.

Place *The Grendel*, at the foot of Tygerberg; and thence to the *Compagnies Dam*, under the Blue-berg, to the Sea, shall, for the purposes of this Ordinance, be deemed and taken to be included in the general terms of the Cape Flats and Downs.

III. And be it further enacted, That it shall not be lawful for any Person to cut, root up, burn, or otherwise destroy or carry away any Tree, Shrub, or Bush, growing upon any part of the Crown Lands situate within the said Cape Flats and Downs, (save as hereafter provided for;)—and any Person, who shall cut, root up, burn, or otherwise destroy, any such Tree, Shrub, or Bush, or who shall employ any other Person so to do, shall be liable, upon conviction, to a fine not exceeding £5.

IV. And be it further enacted, That any Person or Persons, (except Travellers and Persons who may be duly licensed, in manner hereafter mentioned, to cut Thatching Reeds or Rushes,) who shall cut or break off any Tree, Shrub, or Bush, as aforesaid, or who shall employ any other Person so to do, shall be liable, upon conviction, to a fine not exceeding £5.

V. And be it further enacted, That any Person, who shall drive or send, or cause to be driven or sent, any Sheep, Goats, or Swine, to graze on the aforesaid Crown Lands, save and except such Sheep, Goats, or Swine as may be going to or from a Market, shall be liable, upon conviction, to a fine not exceeding £5.

VI. And be it further enacted, That it shall and may be lawful for the Civil Commissioners of the Cape and Stellenbosch Districts, respectively, to grant to any Person applying for the same, a Licence, to graze horned Cattle, Horses, or Mules, for one whole year, upon the aforesaid Crown Lands, not being Outspan-places; which Licence shall commen ce and take effect from the 1st day of July of each Year, and shall set forth the greatest number of Cattle, Horses, or Mules allowed to graze under and by virtue of the same; and which Licence shall be paid for at and after the rate of Sixpence Sterling for every Horse, Mule, or head of horned Cattle.

VII. And be it further enacted, That it shall be lawful for the said Civil Commissioners respectively, to grant to any Person applying for the same, a Licence to cut and carry away from such Crown Lands, Thatching Reeds or Rushes; which said Licence shall set forth the quantity of Bundles of Reeds or Rushes intended to be cut, and which Licence shall be paid for at and after the rate of Nine Pence Sterling for every 1000 Bundles, and which Licence shall have effect for the term or space of Three Calendar Months, and no more, from the date of the said Licence.

VIII. And be it further enacted, That any Person who shall graze horned Cattle, Horses, or Mules, or cut Thatching Reeds or Rushes upon any part of the said Crown Lands, without having taking out a Licence, as hereinbefore mentioned, or who shall graze a greater number of horned Cattle, Horses, or Mules, upon the aforesaid Lands, or who shall cut or carry away therefrom a larger quantity of Thatching Reeds or Rushes than is set forth in his said Licence, or who shall make use of the said Licence after the expiration of the term for which it shall have been granted, shall be liable, upon conviction, to a fine not exceeding £5, for each offence.

IX. And be it further enacted, That the Civil Commissioners aforesaid shall, as soon as may be after granting the said Licences, transmit to the Secretary to Government, for publication in the Government Gazette, a List of all Persons having taken out Licences for grazing and cutting Thatching Reeds; and the said Civil Commissioners shall transmit a like Notice to the several Field Cornets, whose Wards, or any part thereof, are situated within the Cape Flats and Downs; and the said Field Cornet are hereby expressly enjoined and required to enforce to the utmost of their power the provisions of this Ordinance, and to report to the respective Clerks of the Peace, for immediate prosecution, all Persons who shall be found contravening, or who shall have contravened, the same.

X. And be it further enacted, That the Civil Commissioners aforesaid shall fix the Boundaries of the several Outspan-places now existing in the said Crown Lands, and situate within their respective Districts, and shall cause the extent thereof to be marked and defined in such manner as to afford to all Persons having lawful occasion to use the same, the full benefit of such Outspan-places.

XI. And be it further enacted, That any Person, (*bona fide* Travellers excepted,) who shall graze any Animals whatsoever, upon those parts of the said Crown Lands, which now are, or may hereafter be, appropriated as Outspan-places, or who shall water such Animals at any of the Public Watering Dams attached, or hereafter to be attached to such Outspanplaces, shall be liable, upon conviction, to a fine not exceeding £5;—and it shall be lawful for any Person whomsoever, who find any such Annimals trespassing on the said Outspan-places or Watering Dams, to and drive them, or cause them to be seized and driven, to the nearest Pound.

XII. And be it further enacted, That all offences under this Ordinance shall be tried before the Resident Magistrate of the District within which the offence shall have been committed; and, in default of payment of any Fine imposed, it shall be lawful for the said Magistrate to sentence the Person adjudged and making default to pay such Fine, to imprisonment with or without hard labor, as such Magistrate shall direct, for any period not exceeding Three Calendar Months.

WHEREAS on the Twenty-eighth Day of August, in the Year of our Lord One Thousand Eight Hundred and Thirty-five, the Estate of the said *Philippus Jacobus Fourie*, Louis' son, was by order of the Hon'ble Mr. Justice MENZIES, one of the Judges of this Court, placed under Sequestration in the hands of the Master of this Court, upon the Petition and Surrender of the said *Philippus Jacobus Fourie*.

And whereas at a Meeting of the Creditors of the above-named Insolvent, held before the said Master, in the Grand Jury Room, Public Buildings, Cape Town, on the 17th November 1835, pursuant to Advertisement in the *Government Gazette*, of the 16th October 1835, an offer of composition was made by *Louis Johannes Fourie*, on behalf of the Insolvent, "to pay to the Creditors of this Estate, within one Calendar Month from the due acceptance of the offer, the half amount of their respective Debts proved under this Estate, (or ten shillings in the pound,) on their certifying the same, to grant a discharge in full, and upon their consent that the Estate may be released from Sequestration."

And whereas at a second Meeting of the Creditors aforesaid, held before the said Master, on the 19th day of January 1836, pursuant to Advertisement in the *Government Gazette*, of the Twentieth day of November 1835, for the purpose of deciding upon the said offer of composition, nine-tenths of the Creditors then present finally agreed to accept the same, and authorized the said Insolvent to apply to the Supreme Court to have the Estate of the said *Philippus Jacobus Fourie* released from Sequestration.

And whereas the said last-mentioned Creditors have testified, in writing, to this Court, their acceptance of such offer, and the said *Philippus Jacobus Fourie*, Louis' son, hath made oath in writing, that such composition hath not been procured by him, or any one on his behalf to his knowledge, by any fraudulent or undue means, or influence:

Now, therefore, the Court doth release the said Estate from Sequestration. By the Court,
T. H. BOWLES, Registrar of the Supreme Court.

In the Supreme Court of the Colony of the Cape of Good Hope.

In the Insolvent Estate of *John Sadler*.

WHEREAS on the Twenty-fourth day of September, in the year of our Lord One Thousand Eight Hundred and Thirty-three, the Estate of *John Sadler*, of Cape Town, Painter and Glazier, was, by order of the Hon. Mr. Justice KEKEWICH, one of the Judges of this Court, placed under Sequestration in the hands of the Master of this Court, upon the Petition and Surrender of the said *John Sadler*.

And whereas the said *John Sadler*, hath produced to this Court a Certificate, signed by four-fifths in number and value of the Creditors, who have proved Debts against his Estate, testifying their consent to his discharge from his Debts; and the said *John Sadler*, hath made oath, in writing, that such Consent and Certificate were obtained without fraud, and without his having used any undue means or influence, or having made any secret compromise with his Creditors in order to obtain the same.

And whereas the said *John Sadler* hath applied to this Court, by motion, to have his Certificate allowed, and due notice having been given of the said motion in the *Government Gazette*, none of the Creditors of the said *John Sadler* have shown any objection thereto.

Now, therefore, the Court doth allow and confirm the said Certificate. By the Court,

Mr. L. J. MACKINTOSH.

The increase of commercial enterprize in all the British settlements throughout the southern hemisphere, and the opening of the trade with India, tend to show that the Cape of Good Hope and the adjacent districts, when the natural resources of the colony are developed by the introduction of capital under judicious management, will become, at no distant period, one of the most important colonies under the British Crown.

The grant by Parliament in 1819 of £50,000, for sending out emigrants to Algoa Bay, enabled a number of settlers to reach their destination in 1820, and to establish that valuable addition to the British Colonies, which at present comprises the district of Albany, &c. on the South eastern Coast of Africa.

Some difficulties were encountered until 1824; but the natural resources of the country encouraged the efforts of the emigrants, and Algoa Bay having been admitted in 1827 to the advantages of general commerce, the imports and exports for the following years afford the best evidence of its rapid progress, viz.

	Imports.	Exports.
1828	£ 55,201	£ 41,290
1829	63,491	59,300
1830	99,742	60 828
1831	65,518	65,351
1832	112 845	86,931

[The returns for the succeeding years have not been ascertained.]

The principal exports come direct to England, and employed in 1832 upwards of 15,000 tons of British shipping.

The rapid increase of trade to the port of Algoa Bay alone, as shown by the preceding statement, affords striking evidence of the certainty with which a still wider market for British manufactures, throughout the settlements, may be anticipated.

The traffic with the native tribes consists of calicoes, woollens, ironmongery, &c in exchange for ivory, hides, skins, horns, gums, and other produce of the interior.

One of the earliest objects of this Company will be to establish a Whale Fishery on the coast and in the South Seas. All the bays in the neighbourhood of the Cape periodically abound with whales, and stations may be formed for fishing at Algoa, Plettenberg, and Mossel Bays on the eastern, and at Saldanha and St. Helena Bays on the western coasts.

By the establishment of fishing stations in these bays, the vessels will return to port immediately after procuring their cargoes, and, as soon as refitted, will be despatched again without delay to their fisheries. Ships employed in the South Sea fishery from England are necessarily fitted out for a period of three years. The outfit of the vessels proposed to be employed by the Company will be reduced to one of only a few months.

Families of seafaring men, employed in this trade, would thus be enabled to settle themselves beyond the reach of poverty, in a healthy and comfortable home, to which the mariners would return after short and profitable voyages, instead of being absent, as now, for long, anxious, and uncertain periods. The moral habits of the maritime population would be improved, and their happiness materially promoted.

The salubrity of the climate may be estimated by the following extract of a dispatch, addressed during the late Caffer War, by Colonel H. G. Smith, Chief of the Staff, to Major General Sir Benjamin D'Urban, K.C.B., Governor of the Colony:—"Not a single officer or private has died or required to leave the field on account of sickness, although often sleeping without tents in the open air, which I ascribe partly to the judicious manner of their being equipped, and partly (perhaps, I should say chiefly) to this salubrity of the climate, in which respect I do not think the country is surpassed (and I question if it be equalled) by any in the world."

As a proof that the climate and soil are peculiarly favorable to vegetation and production, it need only be mentioned that grapes, peaches, apricots, oranges, lemons, pears, apples, melons, maize, wheat, oats, barley, potatoes, and other vegetables, are abundant; no extreme of heat or cold interposing to defeat the labours of the settler. Tobacco is grown to a considerable extent; and cotton, opium, rhubarb, and other products, may be easily cultivated. Wool has already become an improving article of export, and silk may be cheaply produced in large quantities.

In most colonies, scarcity of labourers, and the consequent high rate of wages, retard the exertions of the emigrant; but, in South Africa, native labourers may be obtained in any number, and at a cheap rate, for all the common purposes of husbandry.

To British mechanics and superior agriculturists, as well as to seamen, facilities will be given for emigrating with their families; and engagements will be entered into with them for employment, securing to the faithful and industrious, ample provision for present wants, and a comfortable independence for the future.

For emigrants of limited capital, farms will be laid out with suitable buildings, to be rented for a term of years; by which means a larger proportion of the capital of the emigrant will become available for stocking his farm, and be productive of more immediate returns than if sunk in the first instance in the purchase of land and the erection of buildings.

The Directors hope, that as population increases at their various establishments, and the results of their efforts to promote civilization become apparent, they may secure the zealous co-operation of Religious Societies, and of all persons willing to assist in diffusing the blessings of religious instruction and education:—thus ameliorating the moral condition of the native tribes, and securing to the European emigrant the spiritual benefits enjoyed in his own country.

These considerations, and the encouragement offered by influential persons connected with the agricultural and commercial interests of the colony, have determined the Directors to form the SOUTH AFRICAN COMPANY, for the accomplishment, among others, of the following leading objects:—

The establishment of fisheries on the coast and in the South Seas.

The encouragement of emigration, by the purchase of tracts of land adapted for the grazing of sheep and cattle, and for the rearing of stock, as well as for general agriculture.

The laying out and fencing of farms, with suitable buildings, to be let on lease to settlers, with an option to the tenant of purchasing on reasonable terms, at fixed prices, and at stated periods.

The formation of docks for building and repairing vessels, and of wharfs, warehouses, and buildings, the erection of steam machinery, the improvement of internal communication, and the construction of works of general public utility.

MOON'S CHANGES:—June 29, Full Moon, 0h. 11m. A.M.

SHIPPING AND TRADE.

On Monday last, the 20th instant, it blew rather a fresh gale from the Northward, with a hard-looking sky; the signal was made from the Port Office "Veer to a Cable." About 2 P.M. the brig *Matilda*, C. Comin, Master, made a signal "I am striking the ground," (having been in shoal water), "and send me a boat,"—the Port boat was sent off to ascertain the particulars, and it was thought advisable (it being low water) to throw about 30 hogsheads of Wine (which were on deck) overboard, for the general preservation.—About 4 P.M., with the flood tide, the Wind shifted to the Westward with torrents of rain, by which the Shipping were in security. On the following morning the *Matilda* was removed into a more secure berth. A Survey was held, and the Surveyors were of opinion that the vessel is in a fit state to proceed on her voyage to London. About 26 hogsheads of the wine has been recovered, with little or no damage,—The Barometer during the breeze fell but little,—its lowest was 29. 96.

HORTICULTURAL AND AGRICULTURAL CALENDAR,

By JAMES BOWIE, Botanist,

For JULY.

In this month copious rain falls, the north and north-west winds prevail.

Kitchen Garden.—About the full moon sow cabbage, to be transplanted in September. In warm and sheltered situations, pumkins, calabash, and maize, may be sown for early crops, and which at this season require rich soil, and, on some ground, top drains; full crops of peas and beans must be sown this month, and towards the end of the month plant the early varieties of kidney beans, on cold wet, and sandy soils: this vegetable will succeed better if sown a month later. A full crop of celery should be sown now, and in dry weather continue to earth up that which is already planted out. Turnip of all kinds may be sown now in drills, enlarging the pace according to the size which each variety commonly attains. In warm situations, potatoes, onions, and leeks answer well, radish, lettuce, endive, and small salads must not be forgotten at their stated periods.

During the wet season, the seed beds for various crops should be raised above the ordinary level of the ground, and their surface levelled, or sloped towards the sun, that the plants may receive the full benefit of warmth and drainage, so very essential in the winter months; during which lettuce and endive thrive best on beds so formed.

In dry weather the hoe must be applied, both to destroy weeds, and keep the ground loose.

Plant out such culinary vegetables as are required for seed, onions in particular; it is strongly recommended to seed growers, to assort this bulb before planting, arranging them according to their form and the color of the skin, at present, the whole varieties are confounded together, although so easy of arrangement, and which is necessary to prevent a farther degeneration in a vegetable of so much importance As a light hint to those who will improve upon it, the following are the names of the original varieties now cultivated 1. White or *oignon blanche*, 2. Portugal, 3 Strasburgh, 4. Blood-red, several sub-varieties are met with, possessing the essential properties of the onion in various degrees which are, size, mildness of flavor, and long keeping, the under ground potatoe or proliferous onion, does not produce seed, and is as yet, but little known in the colony; it is fine, productive, and certain in crop, and particularly adapted for small gardens

The moisture in this month, encourages the slugs and snails to traverse the garden and do much injury to the growing crops; to destroy these animals effectually, cabbage leaves may be laid flat on the ground to which, the animals will retire for shelter, and they may be taken by the hand in the mornings and destroyed. To prevent their access to particular beds or plants, chaff may be strewed around these, and which, sticking to the bodies of these animals, obstructs their movements By a constant attention to such precautions, and not permitting any accumulation of rubbish about the fences, which shelters them, small gardens may be quickly cleared of this pest

Nursery or Orchard.—The directions given last month for the sowing tree-seeds and planting trees are still to be attended to, if requisite. Cuttings of apples, pears, figs, and mulberries may now be planted in light, moist and rich soils. Stakes or truncheons of the black mulberry, of any thickness to that of two inches, and of any convenient length, may be planted in deep rich soil, and treated in every respect as trees are on being planted, giving them support, shade, moisture, and protection from strong winds; such stakes root freely, and produce fruit the second year. The wild mulberry may be planted on any spare ground, and treated as directed for the *tauybosch* in February; this species does not require, though it thrive best in, rich soil The European olive, willow, and poplar may likewise be propagated by truncheons, and will grow in any soil.

This is the most proper season for grafting fruit trees. The scions (grafts) should be cut off in June, and placed in the ground as directed for the vines, till wanted. As the cork-tree, and some other species of oak (new to the colony) have been lately introduced but have not yet produced seeds, and it being of importance to increase these species (the cork tree in particular) scions may be engrafted on young seed-bearing branches of the common oak, by which, one of the principal intents of grafting will be exemplified, viz a *speedy production of fruit*. Chesnut, hazelnut, and filbert, as they belong to the same natural order as the oak, may also be grafted upon it, and with the same results. The same rule holds good with all trees and shrubs with few exceptions, but these may be overcome by the observation and practice of a scientific gardener

Cuttings of quince may be planted to form future stocks for Pears, it improves the flavour of the fruit, and pears grafted on quince stocks require less room in the orchard than others; it must however be observed that quince stocks do not last so long as seedling pear stocks, and being of a smaller growth, care must be taken to suit the variety of pear accordingly.

Trees and shrubs may now be layered, by bringing down any convenient placed branches and pegging them firmly to the ground, and laying the side shoots into a rich soil composed principally of leaf mould finely pulverised; the depth to which the layers are placed should not exceed four inches, and allow from three to six inches of the points to appear above ground, fixing them as nearly upright as possible; whatever wound may be inflicted to induce them to root, care must be taken not to mangle the wood. A basin should be formed around the layers with the surrounding earth and the layers immediately and gently watered, which must be occasionally repeated in dry weather to insure success.

In moist weather cleanse the trees from moss and scab (*coccus*) by a strong hard brush, or an iron scraper, and in dry weather, apply the soap ley, to which may be added tobacco dust and flour of sulphur.

Where the orchard is situated in low and wet situations it must be drained during the wet season by well cut ditches, and cross surface drains

Flower Garden.—The general instruction for last month is applicable to the present Nasturtium, or Indian cress should be sown now. The tubers of Georginas taken up in April are now to be replanted, if desired the tubers may be divided, taking care to preserve one shoot at least to each division; this plant must be sheltered from the south east wind. Sweet and Tangier peas will now require sticks.

Vineyard—In the forming of a new vineyard, the ground ought to be trenched three feet deep where practicable, removing all the larger stones, strong rooted weeds and shrubs; a good dressing of manure must be applied, mixing it thoroughly with the soil; the cuttings should be chosen about 14 or 15 inches in length, leaving two buds at least above ground It is by far the best plan to plant the cuttings out at once, which should be done in a regular manner, the lines being placed in a south-east or north west direction: cuttings should also be planted singly, in pots or small boxes and plunged in ground, these will root freely and serve for future occasions to replace any stocks that may be in the vineyard; if any of the stocks decay in an established vineyard the vacancy may be filled by layering a branch from a neighbouring vine, or more immediately by a plant from one of the serve pots, taking care to dig a hole for the reception of the plant eighteen inches deep, and filling round the young vine with rich prepared manure.

Where vines are intended to run up and spread in large trees they should if possible be both planted at the same time, and but a few inches from each other.

Farm—To have late barley the land must now be prepared. The early part of this month is also a favorable time for preparing ground by cross and deep ploughing for mangel wurzel, carrots, maize, pumkins, and potatoes. Full crops of peas and beans should be sown now, as a last and principal crop for the season, but in this, as in many cases, the experienced farmer must take into consideration local and other circumstances. The ground for a full or principal crop of tobacco must also obtain particular attention.

Fruits in the Market.—Oranges lemons, calabash pears, loquat, and jambos From this period till the month of November, the orange and its congeners may be considered as the only fresh fruits in the market. Walnuts, almonds, and raisins, as dried dessert fruits, throughout the year: as to the dried figs of the Cape they are not so good as they might be.

XIII. And be it further enacted, That the Rules and Regulations for the Management of the Association heretofore existing under the said Contract, shall be, and the same are hereby declared to be, from and after the passing of this Ordinance, of no force or effect, except in so far as may be necessary to render valid any matter or thing which shall have been done and executed by the said Association heretofore in existence.

XV. And be it further enacted, That in case any Member of the Association hereby constituted and established, shall become Insolvent, or shall sell or otherwise dispose of his Share or Shares in the said Capital Stock, he shall thereupon cease to be a Member.

OF THE DIRECTORS.

XVI. And be it further enacted, That the affairs of the Association hereby constituted and established, shall be entrusted to, and carried on by five Directors, being Members of the Association, residing in or within six miles of Cape Town, and not filling any situation under the Government of this Colony.

XVII. And be it further enacted, That the said five Directors shall annually choose from among themselves, a President, who shall (and in case of his absence, the Director next in seniority shall) preside at all their Meetings; and, in case of an equality of votes, the President or Director so presiding shall have the casting vote.

XVIII. And be it further enacted, That Christian Lourens Herman, Abraham Faure, senior, Jan Fredrik Serrurier, Johannes Petrus Serrurier, and Daniel Denyssen, LL.D, shall be, and the same are hereby appointed the first Directors, whereof the said Daniel Denyssen shall be, and he is hereby appointed the first President, and such Directors shall continue till the Thirtieth day of April, One Thousand Eight Hundred and Thirty-seven, and thenceforth until some other Directors are appointed in their place.

XIX. And be it further enacted, That upon the said Thirtieth day of April, One Thousand Eight Hundred and Thirty-seven, the said Christiaan Laurens Herman and Abraham Faure, senior, shall go out of office of Directors, and shall be replaced by two Members, to be chosen by a majority of votes of Members present at the General Meeting, to be held on the last Monday in the said month of April;—and upon the Thirtieth day of April, One Thousand Eight Hundred and Thirty-eight, the said Jan Fredrik Serrurier and Johannes Petrus Serrurier, shall go out of such office, and shall be replaced by two Members, to be in like manner chosen;—and upon the Thirtieth day of April One Thousand Eight Hundred and Thirty-nine, the said Daniel Denyssen, together with one of the Members whose names shall then stand at the top of the List of Directors, shall go out of such office, and shall be replaced by two Members to be in like manner chosen; and in like manner the two senior Directors shall go out of office in each year, and be replaced by two Members, to be at each succeeding General Meeting, to be held upon the last Monday in the month of April in each year, in like manner chosen: Provided that at every such election of two Directors, the Members shall determine which one shall go out of office before the other, and provided that it shall and may be lawful for the Members to re-elect any such Directors, immediately after his term of holding such office shall expire.

XX. And be it further enacted, That the Directors shall meet once in each week, or oftener if necessary, as they shall determine among themselves for the despatch of business, and that three Directors shall be a quorum, and shall be competent to perform all matters and things which may be done by the Directors under the provisions of this Ordinance.

XXI. And be it further enacted, That it shall and may be lawful for any two Directors to execute any Bond or other Act for and on behalf of the Directors, to draw up and execute any Inventory or Liquidation, Distribution, or other Account, and all such Bonds, Acts, Inventories, and Accounts, so executed, shall be equally valid as if the same had been done and executed by every one of the Directors.

XXII. And be it further enacted, That in the event of a vacancy occurring among the Members, the Directors may, and whenever the number of Members shall be reduced to Nineteen or less, the said Directors shall call a Meeting of the Members, of which fourteen days' previous notice shall be given by the Secretary to each Member and Shareholder, so soon as may be convenient, and not later than twelve months after the Members shall have been reduced to Nineteen or less in number, at which Meeting the Members present shall elect by Ballot, one or such greater number of persons as the Directors shall think advisable to be Members, so as that the Members may not exceed in the whole the number of which the Association shall at the time consist from among those who may have made application to become such Members: Provided however, that no Person shall be elected as a Member, unless three-fourths of the Members present shall have voted in his favor; and provided that, should any Shareholder have made application to become a Member, no Person not being a Shareholder shall be elected, until three-fourths of the Members present shall have voted against his election: And provided further, that should any such Shareholder not be elected, he shall be bound, upon application having been made to him in writing by the Secretary within fourteen days thereafter, to sell his right and interest in his Share or Shares to the Person in such manner elected to be a Member in his place, for the amount or value thereof, as the same shall have been ascertained by the last preceding statement and balance sheet of the Capital Stock.

XXIII. And be it further enacted, That no Person not being a Shareholder shall be eligible to become a Member until he shall have deposited in the hands of the Directors the amount or value of the Share which shall be required to constitute him upon his election a Member, or until he shall have given security to the satisfaction of the Directors, that, in the event of his election, he shall be bound and shall be able to purchase such Share.

XXIV. And be it further enacted, That so soon as the Abstract and Balance shall have been approved by the Meeting, as provided by the 8th Section of this Ordinance, the Directors shall appropriate the Income of the Association for the preceding year, as exhibited by such Abstract and Balance, in manner following, that is to say: After payment of the Debts due by the Association, remuneration to the Directors, and Salaries of the Office-bearers and Servants of the Association, to the payment of interest at the legal rate at the time current within the Colony to the Members; and of interest at the rate of one per cent. less to the Shareholders upon the Shares held by them and each of them respectively, according to the value of such Shares as ascertained by the last preceding Abstract and Balance of the Funds; after which the remainder shall be divided into four equal parts, whereof three parts shall form a dividend to be divided among the Members in proportion to the Shares possessed by each, and the other part shall be added to and become part of the Capital Stock of the Association;—Provided however, that should any loss have been sustained by the Association so as to reduce the Capital Stock below the original amount thereof, then no dividend and no interest to the Members, upon the Shares held by each respectively, shall be paid until the said Capital Stock shall have become increased to such original amount.

XXV. And be it further enacted, That in case any Director shall become Insolvent, or be absent from the Colony for three months, or shall cease to be a Member, such Director shall thereby become disqualified, and his office shall cease and become vacant; provided however, that it shall not be lawful for any Director to sell his Share required to qualify him to be a Member, until he shall have obtained the consent of a majority of the Members present at a General Meeting duly called for that purpose, any thing in the 22d Section of this Ordinance contained notwithstanding.

XXVI. And be it further enacted, That in case any Director shall become mentally incapacitated, or in case the conduct of any Director shall at any time be such that his continuance in Office shall appear to at least two of the Members of the Association hereby constituted and established, to be prejudicial to the interests of the said Association, and that notice thereof shall by them be given to such Director in writing, the Directors shall forthwith call a General Meeting of the Members, for the purpose of determining, whether such Director shall continue in Office, upon eight days' notice being given by the said Directors to the Members severally, such notice to set forth the purpose for which such Meeting is called; and it shall and may be lawful for the Members present at such Meeting, by a majority of votes of all the Members of the Association at the time being, to remove such Director from his Office.

XXVII. And be it further enacted, That in case any Director shall die or desire to resign his said Office, or shall be removed as aforesaid, the surviving or other Directors shall forthwith call a General Meeting of the Members, for the purpose of electing a Director in his place, of which Meeting eight days' previous notice shall be given by the Directors to the Members severally, and of the purpose for which such Meeting is called; and it shall and may be lawful for the Members present at such Meeting, to elect a Director in place and stead of such Director, who shall continue in Office until the expiration of the period for which such Director so dying, resigning or being removed, had been elected, and no longer. Provided that no Director shall be allowed to resign until the Members at such General Meeting shall have consented thereto.

XXVIII. And be it further enacted, That the said Directors, by and in the name of "the Secretary of the South African Association for the Administration and Settlement of Estates," shall and may prosecute any action for, or in respect of any Sum or Sums of Money, Dues, Titles, Claims, or Demands whatsoever, of or relating to the Affairs of the Association, or order the discontinuance or nonsuit thereof, and shall and may compromise or submit to arbitration the matters in question, or otherwise act in any manner as they shall think fit and conducive to the benefit of the said Association, and shall and may, subject to the provisions of the Ordinances Nos. 40 and 73, or of any Law or Ordinance which may hereafter be enacted or then be in force in that behalf, prosecute any Criminal Action for any Fraud, Crime, or Offence, committed against or with intent to defraud the said Association, and that no action or other proceeding shall abate, discontinue, or be rendered ineffectual, by reason of the death, removal, or resignation of such Secretary, but that the Secretary for the time being shall always be and be deemed to be, the Plaintiff or Prosecutor in any such Action or Proceeding, as the case may be.

XXIX. And be it further enacted, That all Suits or Actions, the cause of which may arise or accrue to any Person by reason of any Contract or Agreement, or any matter or thing made or entered into, done or performed, or omitted to be done or performed by the Association heretofore existing, or the Association hereby constituted and established, shall be brought against the Secretary of the said Association for the time being, and not against the Members or Shareholders, or any of them.

XXX. And be it further enacted, That the said Joint Stock or Capital of Seven Thousand Eight Hundred and Seventy-five Pounds, and such Stock or Capital as may be added to the same, under the provisions of this Ordinance, shall be vested in the hands of the Directors, for the benefit of the Association hereby constituted and established, to be by the said Directors lent out at interest upon good and sufficient security of landed or other property, or otherwise invested in landed property as to the Directors shall appear most conducive to the interests of the Association, and that the said Capital Stock shall be liable to satisfy such Claims and Demands as may have accrued to any Person or Persons against the Association heretofore in existence, or which may accrue against the Association hereby established and constituted.

XXXI. And be it further enacted, That it shall not be lawful for any Member or Shareholder, to sell or assign his Share or Shares in the Capital

Stock to any Person or Persons, until he shall have made an offer in writing, addressed to the Secretary, to sell the same to the Directors for the benefit of the Association hereby constituted and established, and such offer shall by them have been refused; provided that should the Directors fail to reply to such offer within fourteen days after the same shall have been delivered, they shall be deemed to have refused to purchase such Share or Shares, and upon such refusal it shall and may be lawful for such Member or Shareholder, to assign such Share or Shares to any other Person by endorsement, upon the Certificate thereof, specifying the Person or Persons to whom the same is or are assigned, and upon production of such assignment at the Office of the Association, the same shall be registered by the Secretary in the name of such Person or Persons, as the holder or holders of such Share or Shares; and thereupon such Member or Shareholder having made such Assignment, shall cease to have any interest therein.

XXXII. And be it further enacted, That upon the death of any Member or Shareholder, the Share or Shares possessed by him shall descend to and become the Property of such Person or Persons as he shall by last will or other valid act by him executed, have nominated, or of his Heir or Heirs in case he shall have died intestate; and such Share or Shares shall be held upon the same terms and conditions as if they had been assigned by endorsement upon the certificate thereof.

XXXIII. And be it further enacted, That so soon as any such Person shall be registered as the Holder of such Share or Shares, and until he shall be elected a Member of the Association hereby constituted and established, or shall cease to be such Shareholder, he shall be entitled to receive Interest on account thereof, at and after the rate of one per cent. per annum less than the legal rate of Interest current at the time within this Colony, on the exact amount or value of such Share or Shares as ascertained by the last preceding Statement and Balance-sheet of the Capital Stock, as the only profit or interest to be derived by him as the certified Holder of such Share or Shares.

XXXIV. And be it further enacted, That it shall and may be lawful for the Directors to purchase any Share or Shares which shall be offered to them by any Member or Shareholder, and to hold such Share or Shares for the benefit of the Association hereby constituted and established; and the said Directors shall be entitled in respect of such Share or Shares to the same benefits and profits as any Member is and shall be in respect of any Share or Shares held by him. And it shall and may be lawful for the said Directors to sell such Share or Shares, or any of them, to any Person, in like manner as any Member or Shareholder is authorised to do under the provisions of this Ordinance: Provided however, that should the Members at any General Meeting of the Association, upon the application of any Person for that purpose, resolve to elect such Person a Member, the Directors shall be bound to sell any Share so possessed by them, in order to qualify such Person to become a Member for the amount or value thereof: And provided further, that the Directors shall not be required to sell any such Share so long as any Person, not being a Member, shall be the holder of any Share; and so long as any Member or any number of Members jointly, shall be possessed of any Share or Shares in addition to the Share or Shares which may be required to qualify him or them to be Members of the Association.

XXXV. And be it further enacted, That it shall and may be lawful for any Member or any number of Members jointly, to purchase any Share or Shares, provided the same shall have been offered to, and refused by the Directors, in manner provided by the thirty-first Section of this Ordinance; and such Member or Members shall be entitled to the same privileges, benefits, and profits, as if the same were held by the Directors for the benefit of the Association hereby constituted and established, and shall be bound to sell any such Share or Shares for the amount or value thereof, when required, in order to qualify any person to become a Member: Provided however, that such Member or Members shall not be required to sell any such Share or Shares, so long as any person not being a Member, shall be the holder of any Share.

XXXVI And be it further enacted, That no Member or holder of any Share in the Capital Stock of the said Association shall be liable at any time to pay any claim or demand which any person may have against the said Association, or to make good any loss which any person may sustain by reason of any thing done by the said Association: Provided however, and be it hereby enacted, that the Directors and Officers of the said Association shall be and are hereby held liable for the due administration of all Property placed in their hands, in like manner as all other Executors, Tutors, Curators, Administrators, Trustees, and Agents are answerable according to the laws and usages of this Colony.

XXXVII. And be it further enacted, That it shall and may be lawful for the Members, by a majority of votes of Members present at the General Meeting, to be held upon the last Monday of April in each year, to elect one Member not being a Director, to serve the office of Auditor, and such Auditor shall hold office for the next succeeding year.

XXXVIII. And be it further enacted, That the Association hereby constituted and established, shall have a common Seal for the use of the said Association in transacting the business thereof; provided however, that the said Seal shall not in any case, or for any purpose, be used, except in the presence of two Directors, exclusive of Witnesses.

XXXIX. And be it further enacted, That it shall and may be lawful for the Association hereby constituted and established, to charge the Estates and Property administered by them respectively with such Fees and Charges as may be just and reasonable.

XL. And be it further enacted, That the Association hereby constituted and established, shall continue to exist so long as there shall remain so many as eight Members; but it shall and may be lawful for the whole of the Members, at any time, by their unanimous vote at a General Meeting duly held, and whereof eight days' notice shall have been given by the Directors to the several Members, to declare, that the said Association shall be dissolved, whereupon the same shall be dissolved accordingly, in such manner that the said Association shall not afterwards enter upon the administration of any Estate or Property; or, should the Members be at any time reduced to seven or less, and three months thereafter elapse without the election of any new Member, so as to compose eight Members at the least, the said Association shall be deemed to be in like manner dissolved; provided nevertheless, in either event, the Members of the Association at such time being, shall continue to administer such Estates as they shall have previously entered upon, until the same shall be finally settled; and provided, that the Capital Stock of the said Association shall remain vested in the Directors then being or thereafter to be elected by the Members, until such Estates and Property shall be finally administered and settled.

XLI. And be it further enacted, That this Ordinance shall be deemed and taken to be a Public Ordinance, and shall be judicially taken notice of as such by all Judges, Magistrates, and others, without being specially pleaded.

No. 7.—1836.

ORDINANCE

Enacted by the Governor of the Cape of Good Hope, with the Advice and Consent of the Legislative Council thereof,

For explaining and extending the Powers of the Trustees appointed for the Management of a Mercantile Establishment at Port Beaufort.

WHEREAS several Persons, being desirous of forming a Mercantile Establishment at Port Beaufort, situate at the Mouth of the Breede River, have built by Subscription at that Place a Store or Warehouse; and whereas upon the Thirty-first Day of January, One Thousand Eight Hundred and Thirty-one, His Excellency General the Honorable Sir GALBRAITH LOWRY COLE, then Governor of this Colony, was pleased to grant, in Freehold, unto Messrs. EWAN CHRISTIAN, JOSEPH BARRY, and FRANCIS COLLISON, as Trustees for the management of a Mercantile Warehouse for themselves and the Subscribers thereto, a Piece of Land, situate at the Mouth of the Breede River, for the purpose of maintaining thereupon a Warehouse on the following conditions, to wit:—That the right of access over this Ground to Port Beaufort and to the Subscription Store, and to any Public Passage, which is or may hereafter be established over the Breede River, as well as of unyoking Cattle on such unoccupied Land as shall be fixed upon for that purpose, shall be secured to the Public; that the part adjoining the River in front of the said Store shall neither be cultivated or built upon; and with full powers and authority to them, or to the Trustees to be from time to time chosen by the Subscribers to the said Grant, to possess said Piece of Land for the above purpose, and such further purposes as to a majority of a Meeting of Subscribers, to be called for the purpose by public advertisement, may appear to them most for the general interest; and for the greater security and convenience of the several Shareholders to authorise and direct the Trustees to grant a Certificate to each Holder of a Share, which Certificate will be transferable by endorsement, and the property in the said Land, as also a Share of the said Buildings, and the remaining unappropriated Land thereby vested in the said Endorsee, provided such endorsement be first registered in the Office of the Registrar of Deeds, and that the usual Duties of Transfer be previously paid thereon. The Land granted being further subject to such Duties and Regulations as are either already, or may in future be established with regard to such Land.

And whereas doubts have arisen as to the nature and extent of the powers to be exercised by the said trustees under and by virtue of the said grant; and whereas the said trustees have made application that an Ordinance be passed to explain more fully the objects of the said grant, and to give further and more ample powers to the said trustees, and to provide for carrying the same into effect: Be it therefore enacted by His Excellency the Governor of the Cape of Good Hope, with the advice and consent of the Legislative Council thereof, that from and after the passing of this Ordinance, it shall and may be lawful for the said subscribers, their heirs, and assigns, to become shareholders of the said mercantile establishment and land in the said grant contained, according to the number of shares for which such persons respectively shall have subscribed, and to make application to the trustees for that purpose: Provided however, that if any such subscriber shall have failed to signify his desire to become such shareholder, and shall have failed to pay his proportion, according to his number of shares, of the expenses which have been already incurred, or which shall be incurred in obtaining the said grant, and in securing to such subscriber his share or shares therein, at the expiration of one year after the passing of this Ordinance, such subscriber shall forfeit all claim to become such shareholder.

II. And be it further enacted, That it shall and may be lawful for the said trustees to dispose of such shares as shall, after the expiration of one year after the passing of this Ordinance, not have been paid for by any subscriber to such persons as shall apply for the same, and on such terms as to the said trustees shall appear expedient; and the persons so purchasing any shares, shall in such case enjoy the same privileges under the said grant as the original subscribers.

III. And be it further enacted, That it shall and may be lawful for the trustees to mark off so much of the land in the said grant contained, and in such direction as they shall deem fit and expedient, for a road, or roads, from any part of the said land to any other part thereof: provided, that if such land, so marked off, shall form part of the Erf of any shareholder in manner hereinafter provided to be allotted, such reasonable satisfaction shall be given for the damage which such shareholder shall thereby sustain, as shall be agreed upon between the trustees and such shareholder; and if the said trustees and such shareholder cannot agree concerning the amount of such damages, then the same shall be finally assessed, determined, settled, and adjusted by arbitration, in manner provided by the 20th section of this Ordinance.

IV. And be it further enacted, That, as soon as conveniently may be after the passing of this Ordinance, a general meeting of the subscribers shall be holden at Cape Town, notice whereof shall be given by advertisement in one of the public newspapers of this colony, twenty-one days at least before the said meeting is appointed to be holden, for the purpose of submitting to the subscribers, for their ratifi-

cation, a plan for dividing so much of the said land as to the said trustees shall appear expedient, into Eighty-five Erven, to be allotted among the said subscribers according to the number of shares which each subscriber respectively shall have agreed to take, the same to be held by them in freehold; and in case the subscribers at such meeting, by a majority of votes, shall not ratify the said plan, it shall and may be lawful for the trustees to adjourn the said meeting to a future time, and from time to time, and as often as shall be necessary, to submit an amended plan, and to obtain a vote of the majority of the subscribers present at such adjourned meeting ratifying such amended plan.

V. And be it further enacted, That at such meeting, or adjourned meeting, after such plan shall have been ratified, so many Erven as there shall be subscribers, who shall have signified their desire to become shareholders, and who shall have paid each his proportion of the expenses then incurred, shall be allotted among such subscribers, of each of which Erven the choice shall be determined by ballot; provided that the partners belonging to the firm of ROBERTSON, VENNING and MOODIE, and JOSEPH BARRY, shall respectively be entitled to select for their Erven the land upon which they have respectively built stores; upon condition, however, that the said firm of ROBERTSON, VENNING and MOODIE, and JOSEPH BARRY, in consideration of such preference, shall pay a fine, the amount of which shall be fixed by the decision of two indifferent persons, one to be chosen by the said trustees, and the other by the said ROBERTSON, VENNING, and MOODIE, and the said JOSEPH BARRY, respectively.

VI. And be it further enacted, That it shall and may be lawful for any subscriber who shall, after the said meeting or adjourned meeting, and before the expiration of one year after the passing of this Ordinance, express his desire to the trustees to become a shareholder, and pay his proportion of the expenses at such time incurred according to the priority of his application, to select such Erf or Erven as shall then have been unallotted.

VII. And be it further enacted, That the said trustees shall keep a book, wherein shall be entered the names of all the shareholders, and the description of each Erf, and every shareholder respectively shall sign his name in a column opposite to the said Erf, in acknowledgement of the truth thereof; and the said trustees shall deliver to every shareholder of every such Erf a certificate thereof, signed by the said trustees; which certificate the shareholder, his heirs, executors, administrators, or the holder, may transfer, by endorsement, and the property in the said Erf; and his interest as a shareholder, under the said grant, shall be thereby vested in the said endorsee, provided such endorsement be registered in the book so kept by the trustees, and in the office of the Registrar of Deeds, and provided the duties of transfer be paid thereon.

VIII. And be it further enacted, That a general meeting of the shareholders shall be holden on the first Wednesday of August, in every year, at such place as shall be appointed by the trustees for that purpose, and notice whereof shall be given by them, by advertisement in one of the newspapers of this colony, twenty-one days at least before the same is to be holden; and it shall and may be lawful for the trustees, at any time to call a general meeting of the shareholders, upon giving the like notice thereof; and it shall and may be lawful for the said trustees, and they are hereby required to call a general meeting, being thereunto required by any writing, signed by ten of the shareholders, and delivered to the said trustees, upon the like notice thereof being given by the said trustees.

IX. And be it further enacted, That the resolutions of the shareholders, at any public meeting duly called, carried by a majority of votes, shall be binding upon the whole of the shareholders, in like manner as if each had been present and had consented to such resolution; and in every case in which the votes of any such meeting shall be equally divided, the person who shall preside at such meeting shall have a casting vote.

X. And be it further enacted, That the subscribers at the first general meeting, and the shareholders at all subsequent public meetings of the shareholders, shall have the right of voting in all matters relating to the objects of this Ordinance, according to the number of their respective shares, that is to say:—the holder of one share shall be entitled to one vote; the holder of three shares, to two votes; the holder of ten shares, to three votes; and the holder of eleven or more shares, to five votes; and it shall and may be lawful for any shareholder to empower any other shareholder, by authority in writing to that effect given, to vote in his absence: but such shareholder, so empowered, shall be entitled to one vote, and no more, for every such shareholder being absent; provided that no shareholder shall be entitled to vote for a greater number than ten, such shareholders being absent.

XI. And be it further enacted, That the trustees shall keep a book wherein they shall enter all money received and paid by them, under and by virtue of the provisions of this Ordinance, which account shall be laid before the shareholders for their inspection at the general annual meetings.

XII. And be it further enacted, That two trustees shall be a quorum, and shall be competent to do and perform all matters and things, which may be done under and by virtue of this Ordinance by the trustees, and that the vote of two trustees shall in all cases be deemed to be and shall have effect as the vote or resolution of the trustees; provided however, that in the event of the death, resignation, or removal from office, of two of the said trustees, it shall and may be lawful for the remaining trustee to call a public meeting of the shareholders, upon giving the like notice thereof, and it shall and may be lawful for any ten of the shareholders to call a public meeting in the event of the death, resignation or removal from office of all the trustees, upon giving the like notice thereof, as the trustees would have been required to give.

XIII. And be it further enacted, That the said trustees shall continue in office until the first Wednesday of August, One Thousand Eight Hundred and Thirty-seven, and that, at the annual public meeting then to be holden, three trustees shall be elected in their place and stead, from the whole number of shareholders, and the trustees then to be elected, and all others who shall afterwards be elected, shall continue in office for the period of three years, and shall be succeeded by three trustees to be elected at the annual public meeting, to be holden upon the first Wednesday of August, in the year when such period expires: Provided however, that nothing herein contained shall prevent the said trustees, or any shareholder, afterwards to be elected to such office, from being elected or re-elected to the said office; and provided, that, in the event of the death, resignation or removal from office of any trustee or trustees, before the expiration of such period, it shall and may be lawful for the shareholders, at a public meeting for that purpose called, to elect a trustee or trustees in his or their place and stead, such trustee or trustees to continue in office until the expiration of the period for which such trustee or trustees so dying, resigning, or being removed, had been elected, and no longer.

XIV. And be it further enacted, That it shall and may be lawful for the trustees, for the time being, to let on lease, for a period not exceeding nineteen years, the whole or any part of the land in the said grant contained, and not appropriated for the purposes hereinbefore mentioned, and to authorise any person or persons to graze their cattle upon the said land, and also to dig for, work, and carry away any limestone or other stones for the purpose of building, that may be found upon the said land; and it shall and may be lawful for the said trustees, upon being duly authorised by the shareholders, at a public meeting to be held for that purpose, to sell to any person or persons, the whole or any part thereof, and to deliver to such person or persons a certificate of such purchase, which certificate, the purchaser, his heirs, executors, administrators, or the holder, may transfer by endorsement, and the property therein shall be vested in the said endorsee, provided such endorsement be registered in a book, to be kept by the trustee for that purpose, and in the office of the Registrar of Deeds, and provided the duties of transfer be paid thereon.

XV. And be it further enacted, That it shall and may be lawful for the said trustees to repair, alter, or enlarge the said store or warehouse, and to let the same or any part thereof to any person for the purpose of receiving any goods or merchandize, and also to receive into the said store or warehouse, the goods and merchandize of any person or persons, and to receive a reasonable sum for warehouse-room for the same.

XVI. And be it further enacted, That the trustees for the time being shall stand, and be possessed of all sums of money received for any of the purposes aforesaid, upon trust, to pay and apply the same in the first place, to pay thereout all expenses incurred, or which shall be incurred, in obtaining the said grant, and in securing to each shareholder his respective share;—secondly, to keep in proper repair the said subscription store or warehouse;—thirdly, to pay such sums as they shall be authorised by the shareholders at any public meeting;—fourthly, to pay to each shareholder, in an equal rate according to each share, such dividends of profits or gains as may hereafter arise, after payment of all expenses incurred on account of and in discharge of their trust.

XVII. And be it further enacted, That it shall and may be lawful for the trustees, as such, at all times when they shall see fit, to commence and maintain all such suits and actions in any competent court in this colony, as they shall deem necessary in performance of their trust against any person whatsoever, and such suits and actions shall and may be brought by them in the name of the trustees without specifying the names of the said trustees, and no action shall abate by reason of the death or removal, or going out of office of any trustee.

XVIII. And be it further enacted, That all suits or actions, the cause of which shall arise or accrue to any person whatsoever, from or by reason of any contract or agreement, or any other matter or thing, made or entered into, done or performed by the said trustees in the execution of the said trust, or shall arise or accrue to any person whatsoever, against the said shareholders or purchasers, or other persons claiming under the said grant, or under any of the provisions of this Ordinance, jointly with the said shareholders, shall be brought by such person against the said trustees in manner and in the name aforesaid, and not against any individual trustee or trustees, shareholder or shareholders, or other persons as aforesaid; and in the event of such trustees having no funds to enable them to defray the expenses of such suits or actions, they shall be authorised and empowered to call upon each shareholder to pay the same according to his respective number of shares, and to call upon each purchaser as aforesaid for a just proportion thereof.

XIX. And be it further enacted, That it shall and may be lawful for the shareholders, at any public meeting duly called for that purpose, to remove any trustee or trustees, for insolvency or any misconduct in the discharge of his or their trust, or on account of absence from the colony for a period not less than three months.

XX. And be it further enacted, That in case any difference shall arise between and amongst the trustees, or between the trustees and any of the shareholders, or any other person claiming under any of the provisions of this Ordinance, touching or concerning any matter or thing under and by virtue of any of the provisions thereof, the same shall be finally determined, settled and adjusted by the award, determination or arbitrament in writing of two indifferent persons, one to be chosen by each party in dispute; and in case the said arbitrators shall not make or deliver their award, determination or arbitrament within such time as they shall be limited for doing thereof, then the said parties shall abide by and perform such award, umpirage and final determination in writing of such umpire as shall be chosen by the said arbitrators, made and delivered within such time as shall be limited by the said arbitrators touching all such matters in difference between the said parties.

XXI. And be it further enacted, That such provisions of the said grant as are at variance

with, or repugnant to, the enactments of this Ordinance, shall be null and void, and the remainder of the said grant shall continue in ull force and effect.

XXII. And be it further enacted, That nothing herein contained shall extend, or be construed to extend, to interfere with, or in any way affect, the rights of our Sovereign Lord the King, his Heirs and Successors, or of any body, politic or corporate, or of any other person or persons, excepting those for whose especial benefit this Ordinance is made, and all persons claiming by, from, through, and under them.

The utmost care should be taken to prevent the spread of the disease by means of mangers, &c. to which glandered animals have had access to, or by bridles, collars, &c. that have been used by them.

The co-operation of owners of glandered Horses, and every Inhabitant, is fully expected, in order to arrest, if possible, the further progress of this destructive disease.

Extract of a letter from Capt. Clarke, of the "Skerne."

"Breede River, June 20, 1836.

"I have to inform you of the Skerne's being stranded inside the bar of the Breede River. It was occasioned by the wind failing her as we were on the edge of it on Tuesday the 14th, when she struck. We immediately lightened her by throwing overboard half the Cargo and every thing off deck, but, during the night, she drove in amongst the surf, the sea making a clean break over her at times, and it was with difficulty we got out of her next morning. We cannot approach the vessel after half flood, but we are continually at work in the hopes of getting her off next spring tides; but it is with faint hopes, as where she lies is quick-sand, and she is already embedded about 4 feet. The surf breaks over her at high tide with the least wind, and she has strained herself much, having broken several of her knee bolts, opened her decks, and her copper very much wrinkled. I think, but cannot say positively, she has carried away some of her floor futtocks."

And that no Person may plead ignorance, the following Provisions of the said Ordinance are here re-published, as being directly applicable to the present case.

NOTICE.

GLANDERS, CAPE DISTRICT.

THE RE-APPEARANCE of GLANDERS in some of the Field-cornetcies of this District renders it necessary that the precautionary measures directed by my Official Notice of the 9th December last, (a Copy of which is annexed,) should be again enforced, and the Field-cornets and Inhabitants generally, are in consequence hereby called upon to use every exertion to prevent the spreading of the disease.

Civil Commissioner's Office,
Cape Town, 16th June 1836.

P. B. BORCHERDS,
Civil Commissioner.

The prevalence of GLANDERS in the Cape District renders it necessary that some measure should be devised for abating this nuisance.

I have consequently given instructions to the Field-cornet to cause every infected animal found at large (after due examination in the presence of witnesses) to be destroyed, and to exhort the Inhabitants to put to death at once every Horse that shows symptoms of this *most fatal and incurable disease*.

The utmost care should be taken to prevent the spread of the disease by means of mangers, &c. to which glandered animals have had access to, or by bridles, collars, &c. that have been used by them.

The co-operation of owners of glandered Horses, and every Inhabitant, is fully expected, in order to arrest, if possible, the further progress of this destructive disease.

Cape Town, 9th December 1835.

BEKENDMAKING.

DE wederverschyning van de Paardenziekte, bekend onder den naam van DROES, in sommige der Veldkornetschappen van dit Distrikt, maakt het noodzakelyk dat de voorbehoedmiddelen als vermeld in myne officieele Bekendmaking van den 9 December laatstleden, (waarvan eene Copy hieronder volgt,) op nieuw in werking worden gebragt;—wordende de Veldkornets en Ingezetenen derhalve opgeroepen om alle krachten in te spannen tot voorkoming van de verspreiding dezer ziekte.

Bureau van den Civ. Com. Kaapstad, 16 Juny 1836.
P. B. BORCHERDS, Civ. Com.

Het heerschen van de Droes in het Kaapsch District, maakt het noodig eenige maatregelen te nemen voor het verminderen van dat kwaad.

Ik heb daarom last gegeven aan de Veldkornets, ieder aangestoken Paard dat los gevonden wordt (na behoorlyk onderzoek in presentie van getuigen) te doen dooden, en de Ingezetenen te vermanen ieder Paard te doen dooden, dat teekenen vertoont van deze vernielende en ongenceslyke ziekte.

De grootste zorg moet worden gedragen tot het voorkomen van het verspreiden dezer ziekte, door middel van Kribben, waaraan Paarden die de Droest hebben, gestaan hebben, of door toomen, halsbanden, enz.

De medewerking van de Eigenaars van Paarden die de Droes hebben, en van alle Ingezetenen wordt ten sterksten verlangd, om zoo mogelyk de verdere verspreiding van deze vernielende ziekte tegen te gaan.

Bureau van den Civ. Com. Kaapstad, 9 Dec. 1835.
P. B. BORCHERDS, Civ. Com.

From the London Mercantile Journal, April 5, 1836.

COTTON.—To day we have again had a very brisk trade; the prices have advanced ⅛d per lb. on all kinds, and a considerable business doing at the rise.

TALLOW.—The market continues exceedingly brisk, and a considerable business doing—the demand for future delivery is extensive, principally on speculation at 45s.

WOOL.—The Woollen trade throughout the manufacturing districts continues in an exceedingly animated and flourishing state, both for goods to execute orders for Foreign countries and to complete contracts for home consumption. The imports of Wool of late have been small, consequently business to a considerable extent has been prevented. The low descriptions of Foreign are in extensive request. The scarcity of Spanish Wool is much felt among the trade, very few parcels are now in the market. The prices of all descriptions are steady but exceeding firm.

The public sale of 200 bags Spanish Wool on Thursday sold 1s 8d to 2s 7½d for every low quality.

The British Wool market at the present time is extremely animated, and prices of all kinds have risen

From the manufacturing districts the accounts continue to preserve their previous favourable character.

MANCHESTER MARKET. March 29.—The market today has been well attended; fustians, such as cords, velveteens, &c. have been brisk; nankeens particularly good ones, sold readily; indeed almost every description of cotton goods have sold well.

BROAD RIVER, *June* 27, 1836.

It has been wisely suggested, that the *Munster Lass* and the *Skerne* having both met with calms on the bar of Broad River, (although they proceeded to sea with a strong leading wind) that the circumstance has arisen from the situation of Flag Staff Hill being in the direction of W. N. W. the wind in both instances proceeding from that point

The superiority of the Munster Lass enabled Capt. CAREW to extricate himself,—but the Skerne being short, she turned broadside on the bar, and after buffeting the waves for some time, and being lightened by the heaving overboard the cargo between the decks, she drifted to the soft sands before the Residency.

As the open Roadsteads of the Colony are favoured by the assistance of a Port Captain and Harbour Master, I would humbly represent the necessity of some Gentleman of Nautical skill being appointed to this Station.—I have read of a Bar River in South America, where the Pilots make an inspection every day;—and our variable Soundings,—the nature of the Currents,—the strength of the Tides at every stage of the Springs, and an accurate estimate of the force of the Winds in the line of the Ship Channel, forcibly plead that the Shipping, Mercantile, and Agricultural Interests of the Middle-districts of the Colony should be patronised by a liberal Government. Our Exports of Grain alone, if Foreign Markets could be found, would exceed the value of all the Exports from Table and Algoa Bay, provided the Farmers can be apprized that their efforts will be seconded by the Merchants;—and if Broad River is made navigable for Boats to Worcester, the produce of Grain and Wine would be incalculable

That a vessel can encounter the difficulties of our Bar, and return unhurt, gives a hopeful assurance that, under a kind Providence, there never can be a Shipwreck at Broad River.

FRIDAY, JULY 15, 1836.

PROCLAMATION

BY HIS EXCELLENCY MAJOR GENERAL
SIR BENJAMIN D'URBAN,

Knight Commander of the Most Honorable Military Order of the Bath, of the Royal Guelphic Order of Hanover, and of the Royal Portuguese Military Order of the Tower and Sword, Colonel of His Majesty's 91st Regiment of Foot, Governor and Commander-in-Chief of His Majesty's Castle, Town, and Settlement of the Cape of Good Hope, in South Africa, and of the Territories and Dependencies thereof, and Ordinary, and Vice Admiral of the same, Commanding the Forces, &c. &c. &c.

WHEREAS by my Proclamation issued at Cape Town on the 3d day of January 1835, Martial Law was proclaimed and put in force within the Districts of Albany, Somerset, Uitenhage, Graaff-Reinet, George, and Beaufort: And whereas by my subsequent Proclamation issued at Graham's Town on the 17th June 1835,—it was directed that the said Martial Law should thereafter cease to be in force within the Districts of Graaff-Reinet, George, and Beaufort, and within all that part of the District of Uitenhage, lying West of the Sunday's River,—excepting the Town and District of Port Elizabeth, as defined by the Ordinance No. 1, dated 28th May 1825, until Proclamation should be made to the contrary:

And whereas by the continued tranquillity on the Eastern Border, which has followed the Peace of the 17th Sept. last—it has now become unnecessary that the said Martial Law should remain any longer in force in the latter Districts;—I do hereby order and declare that from and after the promulgation of these presents, Martial Law shall cease to be in force within the said Town and District of Port Elizabeth—within all that part of the said District of Uitenhage lying East of the Sunday's River—and within the Districts of Albany and Somerset.

ABSCONDED from my Service on the 23d Feb. 1835' *Philis*, an Apprentice supposed to be either in Graham's Town or Somerset, where he is well-known as a Mason, Carpenter, or Thatcher; he is about 5 feet 5 inches high, dark eyes, long black hair, brown complexion, stout made, 45 years old, and has a mark of an incised wound on the left side, a little behind the hip, wears a handkerchief round his head, and has the appearance of a Malay, is in company with a Hottentot woman named *Griet*, his reputed Wife, well-known in either of the above places as a notorious drunkard. I have no doubt he has hired himself out as a free person and owing to the want of a Vagrant Law, he and others in a similar situation, can do so, without fear of detection.

I also wish that the Captains would attend themselves at either of the Shambles, from Nos. 1 to 12, where they would find, by dealing personally, an advantage of more than 100 per cent.; likewise of being served with Meat of the best quality.

WRECK OF HIS MAJESTY'S CUTTER QUAIL.

We are indebted to the kindness of an officer on board for the following particulars:—Left Falmouth on Wednesday, March 23, with a mail for Lisbon, wind W.N.W.; bore up in a gale from the S.W., and came in sight of the Lizard. The wind veered to the N.W., blew fresh and continued until Sunday afternoon. About 3h. 30m. it shifted again to the S.W., and blew a heavy gale; towards night, the sea running very high, and the sky having a threatening aspect, both wind and sea increased. On Monday morning, the gale still increasing, took the bonnet off the trysail; found the long boat gone, having broken adrift from the davits; at 4 turned the hands up, reefed trysail, sheets having been repeatedly carried away. At 4h. 30m., then about 50 leagues S.W. of Ushant, an awful sea struck the vessel, on the larboard beam, capsized and nearly filled her with water, sweeping the deck and washing overboard two officers and 22 seamen, together with three guns one anchor, tanks, both binnacles, compasses, &c, in fact, every thing on decks, and carrying away every spar, except the bowsprit, the main-mast having gone in three pieces, leaving about 14 feet standing from the deck.

The bulwarks were laid level with the deck; the hatches washed off, and the ballast hurled out of the hold, which, in its course, burst up the cabin deck, and forced the locks off the after-holds and spirit-room, making as complete a wreck below as the sea had made above. The chain cables were thrown out of the lockers, as well as the ballast to the larboard side, causing a great list to port; and, extraordinary to relate, five pigs of iron ballast, weighing 5 cwt. were hurled into one of the officer's beds, and another pig of ballast was actually thrown into the upper shelf of Lieutenant Bisson's buffet in his cabin. In the midst of this awful scene of devastation, they fortunately saved the lives of two officers and six of the seamen; but, alas! 16 fine fellows perished, leaving 10 widows and families! The larboard quarter of the ship was now even with the water's edge, the sea making a clear breach over her, and rushing down the three hatchways, which had been left exposed by the hatches being carried away. About eight feet of water below, vessel filling rapidly, and apparently settling by the stern.

At this time the survivors relinquished all hopes of being saved, as they expected every moment the vessel would founder; though severely bruised, they exerted themselves to the utmost in covering the hatchways with beds and blankets; the pumps having been rendered totally unavailable, both officers and men worked hard the whole of the day in bailing out the water with tin kettles, &c.; and, blessed be God for his mercy, these apparently hopeless means at last proved successful. Every thing in the ship was thrown together in one heap, and all property, both public and private, was totally destroyed. The officers and men messed in common, having only one pot which they could render serviceable. In the afternoon of that day (Monday) saw two sail, and endeavoured to attract their attention by making signals of distress, but did not succeed. In the night the gale moderated, and on the following morning (Tuesday) succeeded in making a sail on the stump of the mast, by setting a foresail as a trysail, and a spitfire gib. In the afternoon saw a ship to leeward, and ran down towards her; she proved to be a French brig, said she could not hoist her boat, but would remain by the Quail until morning.

About 9h. 30m. spoke an English brig, which, in attempting to send to the Quail's assistance, unfortunately lost a boat and two men (drowned). She also promised to remain by the Quail until morning. At daylight on Wednesday it blew strong from the south-west, with thick hazy weather and a heavy sea; saw the English brig a long distance off, soon after which she disappeared. At 4 p.m. observed breakers to leeward, and found they were in the vicinity of the Saintes Rocks, near Ushant, and in the Race. Wind continued light until midnight, when a fine breeze sprung up again from the south-west; ran before it until 4 p.m. on Friday, when the wind veered to the north-west, and blew so hard from that quarter that they were unable to reach the English coast. Saturday, continued sailing, but making little progress. On Sunday two large ships passed the Quail, and although many signals of distress were fired from their remaining gun, no notice was taken of them. On Sunday night, at 7h. 30m., saw the Casket Lights; and on Monday morning saw the island of Alderney. At 6 a.m. saw the Speedy packet of Jersey, from Southampton, off Alderney; fired signals of distress, and preceived the Speedy bearing down towards them. At 8 came within speaking distance, when the Speedy lowered a boat to get on board the Quail; there still being a rough sea, it took them an hour and a half to make fast to the wreck; had it in tow all night, tacking on and off the wind, and arrived in the port of St. Helier between 6 and 7 o'clock on Tuesday morning.

The two officers who were washed overboard and regained the cutter were Mr. Paul, the master, and Mr. Knox, master's assistant.

BILL,

Presented by the Governor of the Cape of Good Hope to the Legislative Council thereof,

To indemnify the Governor, and all Persons acting under his authority, against certain acts done during the existence of Martial Law in certain parts of the Colony.

WHEREAS on or about the Twenty-third Day of December, One Thousand Eight Hundred and Thirty-four, an Irruption was made into certain Districts of this Colony, of numerous bodies of armed Caffers, and by reason thereof the ordinary course of Law was interrupted, and it became necessary for the Governor to proclaim Martial Law therein, and in other Districts of the Colony, as hereinafter mentioned: And whereas by a Proclamation, made by the said Governor, bearing date the 3d Day of January 1835, Martial Law was ordered and directed from and after the promulgation of the said Proclamation, to be in force within the Districts of Albany, Somerset, Uitenhage, Graaff-Reinet, George, and Beaufort, for all cases and in all matters connected with the assembling and conducting the Forces of the Colony, and to continue to be in force until the expulsion of the Tribes then invading the Colony, unless Proclamation abolishing the same should be previously made: And whereas by a Proclamation of the said Governor, bearing date the 17th Day of June 1835, Martial Law was ordered and directed to be no longer in force within the Districts of Graaff-Reinet, George, and Beaufort, and within all that part of the District of Uitenhage lying West of the Sunday River, excepting the Town and District of Port Elizabeth: And whereas by a Proclamation of the said Governor, bearing date the 9th Day of July 1836, Martial Law was ordered and directed to be no longer in force within the said Town and District of Port Elizabeth, within all that part of the said District of Uitenhage lying East of the Sunday River, and within the Districts of Albany and Somerset: And whereas, during the time that the said Martial Law was in force in the said Places respectively, it was and became necessary for the Governor, and other Persons acting under his order, to direct, authorize, do, and perform, certain acts, matters, and things, within the said Places, which were not justifiable by the strict rules and forms of Law, but which were necessary for the Public Service: And whereas it is expedient that the Governor, and all Persons acting under his order, direction, and authority, should be indemnified in respect of such orders, directions, acts, matters, and things:—

Be it therefore enacted by the Governor of the Cape of Good Hope, by and with the advice and consent of the Legislative Council thereof, that the said Governor, and also all Persons acting under his orders, direction, and authority, shall be, and they are jointly and severally hereby indemnified, freed, and discharged, from and against all actions, suits, prosecutions, and penalties whatsoever, for or on account, or in respect of, all or any acts, matters, and things whatsoever, done, ordered, directed, or authorized, by the said Governor, or by any Person or Persons acting under his order, direction, and authority, and within the said Places, or any of them, during the existence therein of such Martial Law as aforesaid: So only, and provided that such acts, matters, and things, shall have been done, ordered, directed, or authorized *bona fide*, in furtherance and in the execution of the objects for which Martial Law was proclaimed as aforesaid.

Similar Tenders will be at the same time received for carrying extra Posts or Expresses on the Route now offered for Contract, and each Tender should distinctly mention the Sum from Place to Place; and it is hereby especially Notified, that no Contract will be entered into, with any Person, unless a Tender be made to carry Extra Posts or Expresses on the line of Post Road proposed to be contracted for, as provision for this important part of the Public Service must be certain, and not left to the option of the Contractor.

NOTICE TO CAPTAINS OF SHIPS.

THE Undersigned offers to supply Captains of Ships anchoring in TABLE BAY, with fat *Beef* and *Mutton*, at *One Skilling* or 2½*d. per* 2 *lbs.*; also, good Salt Beef, and Live Sheep, on the most reasonable terms, Sheep at 4 Rds. each; provided payment of the Bills, on the departure of the Vessels, be made direct to him; which Captains will find greatly to their advantage, as the enormous percentage demanded by some Agents, Agents' Clerks, and Shippers, occasions the price to be much higher, without any advantage to either the Seller or Purchaser.

I also wish that the Captains would attend themselves at either of the Shambles, from Nos. 1 to 12, where they would find, by dealing personally, an advantage of more than 100 per cent.; likewise of being served with Meat of the best quality.

The following is a Copy of a letter from the Government Resident at Plettenberg's Bay, to the Hon'ble Col. BELL, communicating the intelligence of the loss of the Brig *Dorothys*.

Residency, Plettenberg's Bay,
15th July 1836.

Sir,—It is with much concern I have the honour to report to you, for the information of His Excellency the Governor, that the very fine brig *Dorothys* has become a complete wreck in this bay.

Yesterday she was warped to a convenient anchorage for taking in her cargo of timber, and her moorings were laid down. Unfortunately, a very heavy swell came in from the southward, and notwithstanding a third anchor was let go, she dragged the whole and came broadside on to the beach, about 7 P. M., and almost immediately after canted over with her masts towards the sea.

I am happy to add that no lives have been lost, but no property of consequence has been saved, with the exception of the captain's chronometer.

The vessel is rapidly going to pieces, her decks are torn up, her keel broken, and the whole separating. The captain and crew are now actively employed trying to save the sails, cordage, &c. Neither master, mate, nor crew, have a second change of clothing left.

I have the honour &c.
R. C. HARKER, Gov. Resident.

Hon. Col. BELL.

HORTICULTURAL AND AGRICULTURAL CALENDAR,

By JAMES BOWIE, Botanist,

For AUGUST.

Much rain in general falls this month,—the north-west wind prevails.

Kitchen Garden.—There are but few culinary vegetables but what may be sown with advantage this month, and those sown in June and July must be planted out, treating them agreeably to local situations and their several habits, in which operations actual practice must be the only guide. In planting, every advantage must be taken of showers of rain falling; and of dry weather, for the destruction of weeds, earthing up of various crops which may require it, and, forwarding the work of digging and preparing ground for the ensuing month. During this month, attention must be paid to the keeping open of drains, especially in situations liable to the overflow of periodical streams from the mountains, which, if suffered to stagnate on the lower, and cultivated grounds, retard the growth of, or destroy altogether, many garden crops.

About the beginning of the month, sow dwarf French beans in a deep and rich soil, or where the ground is very sandy, manure must be placed in the drills. With a declining moon, sow Cape cabbage, celery, leeks, onions, parsley, chervil, turnips, carrots white beet, spinage, orache, succory, radish, and early cucumber seeds. To prepare ground for early cucumbers, the richest soil should be selected, digging it two spits deep, and dressing it with a plentiful supply of rotten dung, and if the ground is naturally stiff, decayed lead mould may be added; marking the ground off in rows, and planting the seeds in patches of six or seven in number, and about three feet distances from each patch, or, the seeds may be sown thinly in rows. As this plant attains the height of three or four inches before the cotyledon or seed-leaf is fully developed, the seeds should be sown in hollows equal to that measure, that the ground may be drawn down to the stems and brought to the surrounding level, this will require to be done in a few days after the plants appear; when the plants have formed three rough leaves, they must be stoped, by nipping off the point of the shoot; this causes the plant to throw out lateral shoots, strengthens them, and forces them to fruit at an earlier period than they otherwise would do.

The stools of artichokes should now be dressed, by taking off all the smaller suckers, leaving only three or four of the strongest shoot of each stool; in stiff soils, a good coating of manure applied now, will promote the growth of the plant, and improve the size and goodness of the heads; where required, fresh plantings may be made of the suckers now removed.

This is a favorable time for sowing cauliflower seed in well manured soil, and thinning out the plants without transplanting, but leaving them in rows at proper distances; a shaded, but not a confined aspect is most favorable for this practice; it is observable, that a variety of Cape cauliflower which show a slight purple colored tinge in their heads, is the best to sow in this colony at periods which many persons would deem unseasonable. It is a good practice to tie the leaves of the plants, or to fold two or three leaves down upon the heads of the cauliflower, in order to preserve a delicacy of flavor and color.

Celery is best sown in this month, that it may be ready for trenching out in the months of November and December, for a full and principal crop.

Plant out onions, leeks, pimpernel, soral, and African anise root; there are several native species of plants, allied to the anise, such as *vinkel bol* and others, well worth the garden culture and improveable in size and flavor so as to render them of marketable importance, seeds of which are easily produced from the wilds, or what is perhaps better, young plants may first be introduced. As the onion forms its bulbs on the surface of the ground, the young plants must be planted only so deep as to securely fix them in their proper position, leeks must be placed deeper in the ground. A full crop of red beet may be sown early in this month, as the most proper time for producing good and well formed roots for use.

Cabbage, turnips, carrots, and parsnips may still be planted out for seed.

As this is the best month for planting potatoes, and the certainty of producing a good crop may be depended upon, (even on the poorest soil cultivated in this colony) the present memoranda must be strictly attended to, referring the grower to the notes in June for what is not repeated here. Whole potatoes, are the best sets for planting in this colony, and in general should not be of a less size than one inch in diameter, but, if the potatoe is large and it is requisite to increase the number of sets, the potatoe may be cut, being careful to leave at least one full bud (eye) on each set; as the top of the potatoe forms the strongest bud, so they make the best sets, and produce earlier than either, the middle and bottom, or stalk end, the extremity of which, being without buds is useless for planting, the approved sets must be assorted into three parcels of top, middle, and lower buds, and should be spread out in a dry shed for two or three days before planting, and then keeping each selection to its particular row.

The ground being dug, drills are to be formed to the depth of from six to nine inches, and from eighteen inches to three feet distant from each other, according to the particular habit or growth which distinguishes the variety to be planted, the earlier dwarf potatoe, requiring less room than the late, tall, and large kinds; but three feet distance between drills is the best for all, especially at this season. The drills being formed, place fresh manure along the bottom of each to the depth of three or five inches, according to the strength and goodness of the natural soil, place the sets on the manure at from the distance of nine to eighteen inches apart, according to the width of the drills, the strength of the set, and above all the habit in growth of the variety planted; after the sets are placed, cover them with about two inches of earth drawn down from the sides of the drills, and leave them so, until the shoots have attained the height of four inches; when the time arrives, cleanse the rows from weeds, and draw down the soil towards the rows, stirring the ground well with the hoe, and leave it at the natural level until the plants have made a farther growth of nine inches in height, when the hoe must be again set to work, and the crop earthed up. If the above method is strictly followed, no artificial waterings being required, unless the month of October prove unusually dry, it will be next to impossible that the least failure ensue.

The raising of new varieties of potatoes from seed is under the ordinary method a very tedious process, but if the following directions are attended to, the work will be facilitated, and the object attained in one third of the time usually employed.

When the potatoe-apple is fully ripe, gather a sufficient number, wash the seeds from the pulp, dry, and preserve them till the time of sowing, the most proper season for which is from the middle of July to the middle of August. Sow the seeds thinly, in boxes filled with light and rich earth, watering occasionally if the season prove dry; when the plants are about two inches high, they are to be planted in richly manured soil, and in single rows, at fifteen inches distance plant from plant, when the plants have gained the height of nine inches, lay the stems on the ground, directing their points towards the opposite quarter from which the periodical strong winds are expected, cover the lower part of the stem for six inches, with a good mixture of leaf mould, dung, and earth, and continue this operation as the plants advance in growth, being careful to leave the points of the shoots free for farther progress, keep the plants free from weeds, and in dry weather supply them with water, by hand, and to promote their quick growth, which is highly essential, liquid manure should be supplied occasionally. To each plant, sticks with numerical figures should be placed, and any useful remarks respecting the growth of the plants, produce, and quality, must be entered in the journal or memorandum books with tallying numbers; the stems of the earlier varieties will first decay, it is therefore necessary to take the whole up as they ripen, that the notes entered in the journal may be as complete as possible.

Rhubarb for tarts may be sown this month, and afterwards planted in sandy, well manured soil, in rows, three feet by two feet,

Jerusalem artichokes may be cultivated by planting the small tubers, or by cutting the large ones as the potatoe, leaving one or two eyes on each set, which plant in rows two and a half feet apart, and the sets fifteen inches in the line; keep them free from weeds, and draw a little earth to the stems when about twelve inches high. If planted in single rows, they will form good shade and shelter for light, summer crops. On the decay of the stem, take up the roots, and be sure to clear the ground of even the smallest tuber.

Orchard and Nursery.—Orange, lemon, and fruit trees in general, may be grafted until the middle of the month: moist or cloudy weather is best for the work, the saddle, or whip, modification of grafting is preferable to the cleft method usually practised in the colony: the latter method is most adapted for old trees. The grafts which were put on last year, and are established, should not as yet, be permitted to bear fruit, unless for the determination of quality or kind, but every encouragement given to form strong and handsome heads, by rubbing off the flowers, and all spurious shoots from the stocks. In the orchard, destroy every description of weeds.

Flower Garden.—Requires constant attention in weeding and watering and keeping the walks and borders neat and clean. Cuttings of Camellia, or Japan rose, teashrub, Cape jasmine, (katjiepeerin) Heliotropium, and similar flowering shrubs are now to be planted, placing glasses over them to promote their rooting, plant cuttings of geranium or pelargoniums and other hardy shrubs. Sow hardy annual flowers, and also those of convolvulus major, Chinese aster, India pink and similar, and less hardy kinds; keep the ground loose on the surface, and about the roots of Ixia (kalotje) and other small bulbs, divide perennial rooted plants and plant them out where they are to remain. This is a favourable time for sowing exotic seeds from both cold and temperate climates.

Vineyard.—If the digging of the vineyard has been neglected hitherto, it must now be done, or stand over, rather than risk the shoots which are now sprouting to damage; the vines on treillisages must now be attended to, rubbing off all unproductive shoots, or those which are not required to fill up blanks. Land for new vineyards may still be prepared, and the cuttings planted till the end of the month.

Farm.—This is the season to set brooding hens, ducks, and geese. This subject requires more attention than has hitherto been paid to it, the various breeds of poultry should be kept as separate as possible, unless superior cross breeds are the object, and then the desired improvement must be duly considered, and the best method of obtaining it. Much of the poultry brought to the Cape market is very inferior in regard to size, form and flavor.

Sow a full crop of mangol-wurzel.—To prepare the ground for this crop, it should be plowed as deep as possible, a second, and cross ploughing should follow, applying manure at the rate of twelve or fifteen loads per acre, harrowing it finely, and collecting the weeds in heaps. These may be carried off the land, or burnt where they are, and the ashes strewed as an additional dressing; drills may then be drawn at two feet apart, either with a drill plough, or with the hoe, the seeds are then to be sown thinly in the drills, and covered with a light harrow. When the plants have arrived at sufficient size, or have three or four leaves, the rows must be thinned to about twelve or fifteen inches plant from plant, leaving those to stand for the crop, which show a broad leaf, plane on the margins, (not curled) green in color, or, at most, shown; only a fresh colored leaf stalk; as the plants advance in size, a farther thinning may be necessary. The crop will require to be kept free from weeds by a small horse-hoe, or by hand hoeing. Two or three crops of leaves may be gathered from the plants if wanted, but such gatherings are detrimental to the growth of the roots; and, at the final clearing of the ground, the tops may be cut off, and the roots taken up and stacked for future use. Although this plant will grow on any soil, if well manured, a light loam is what it flourishes in the best. In selecting plants of this crop for seed, choose the largest and best formed roots; preferring those which rise highest above the surface of the ground, and such as preserve a pink color, and green leaves; the plants intended for seed, must not be deprived of their leaves, but permitted to retain them.

A full crop of maize should be sown during this month, the land which has been cleared of green barley being generally freed from the earlier rank weeds, is favorable for bearing a crop of maize; but it will require a good dressing of dung. The grain should be sown in drills at two or three feet apart, and the plants thinned out to at least twelve in the rows, if the maize is intended to stand for a mature crop, the greater space allowed to the plant, will enable it to bear larger and more cobs of grain. Where the ground is rich, and sufficiently good to bear a crop of pumkins or French beans along with maize, the drills for the latter must be drawn at five or more feet distance from each other; the bean may be sown broadcast, but the pumkin is better in rows or patches. Successional crops of maize may be sown at the convenience of the grower, from this period until the latter end of November, the late crops for green forage. The maize corn, when given to horses or mules, should be crushed in a mill; where this is inconvenient, the grain should be steeped in water twenty-four hours before feeding.

This is a proper time for sowing lucerne, (klavergras) it requires a deep soil, naturally good or must be made so by manure: for this crop drills are to be drawn at nine inches apart, the seeds sown therein, and, to shelter the young plants from sun and drying winds, buckwheat, (bockweit) sown broadcast over the whole, afterwards harrowing and keeping it free from any rank weed, which the buckwheat cannot overpower. Lucerne might also be sown earlier in the season, and along with barley, but the buckwheat is best adapted to the purpose required, and will itself repay the farmer, in a speedy return of seed particularly nutritious to swine and poultry; two skepels of buckwheat are sufficient to sow one morgen of land. Lucerne seed sown in drills, twenty pounds weight is requisite per morgen.

Hops may now be planted by suckers from the established stools or by cuttings, the hop ground must be kept free from weeds, and attention paid to the poles, preparing new ones in time.

IV. And be it further enacted, That in order to secure as far as may be the due and regular Administration of the affairs of the Library, it shall not be lawful for the Subscribers at any Annual Meeting, to proceed to the election or re-election of Office-bearers for the ensuing year, until the Committee in office shall have laid, as they are hereby directed and required to lay, before the Meeting a statement of the receipts and expenditure of the Library, during the period which shall have intervened between the last previous audit and allowance of Accounts, and the day fixed for the said Meeting; which Statement and Accounts must have undergone the previous examination, and, if necessary, the correction of the Auditor or Auditors; and in case such Annual Meeting shall see fit to allow the said Accounts, then and in that case only shall the Committee and Auditor or Auditors be relieved from their responsibility, and the election shall proceed:—Provided always, that the Committee then to be elected, shall publish the said Statement and Accounts in the *Government Gazette* for general information, within fourteen days after allowance of the same, otherwise their election is hereby declared to be null and void.

V. And be it further enacted, That in case any Committee shall neglect or refuse to render an Account of their Administration in manner aforesaid, or shall render Accounts which shall have not been certified by the Auditor or Auditors, or which being so certified, shall not be allowed by a majority of votes at the Annual Meeting, or in case the Auditor or Auditors shall neglect or refuse to examine such Accounts, it shall and may be lawful for the Subscribers present at such Annual Meeting to elect,—or when the Committee shall not have appointed some day in the month of April for holding, or shall not have called the Annual General Meeting of the Subscribers in manner hereinbefore provided, then and in such case a General Meeting of the Subscribers shall be held on the 7th Day of the succeeding Month of May, or if the same be on a Sunday or Holiday, on the next lawful Day, (of the holding of which Meeting the Librarian is hereby directed and required to give public notice,) and the Subscribers present at such General Meeting shall then elect, by Ballot, three Subscribers to act as Inspectors, whose duty it shall be to examine into the cause of such neglect or refusal, to call on the Committee or Auditors for all necessary information on the subject of their inquiry, and to make report thereon at a General Meeting of the Subscribers, to be assembled on their requisition within seven days after their appointment as Inspectors, which Meeting shall thereupon take such steps as circumstances may require, and may allow the Accounts and proceed to the election or direct proceedings against the Committee as they shall see fit: Provided always, that in case of the non-allowance of the Accounts at any General Meeting, the Treasurer for the time being shall make no further disbursements until a new Committee shall have been duly elected.

VI. And be it further enacted, That it shall and may be lawful for the Committee for the time being to appoint a Librarian and other Officers at such rates of Salary and under such Orders as they shall see fit, and to suspend such Librarian, and to dismiss or suspend such other Officers, and to make and promulgate all necessary Regulations for the management of the Library and of its Officers, provided the same be not inconsistent with, or contrary to, the true intent and meaning

of any of the enactments of this Ordinance, and that all such Proceedings and Regulations shall be laid before the next General Meeting of the Subscribers, and shall be subject to their decisions; and that no such Regulation whereby any existing Regulation which shall have been passed or approved of by any General Meeting shall be repealed or altered, shall take or be carried into effect; and that it shall not be lawful for the Committee to incur any obligations or engagements, or do any act by which the Capital belonging to the Library may be encroached on, unless a Resolution to that effect shall have been entered on the Minute Book of the Committee, and until one Month after a copy of any such Regulation or Resolution shall have been affixed in some conspicuous place within the Hall of the Library. And provided further, that whenever the Committee shall suspend the Librarian or any other Officer as aforesaid, the Committee shall forthwith call a General Meeting of the Subscribers, on ten days previous public notice, for the purpose of confirming such suspension and dismissing such Librarian or other Officer, or of rescinding such suspension. And provided further, that for the dispatch of the ordinary business of the Committee, three shall be a quorum, but that no new Regulations shall be made, nor any existing Regulation be repealed or altered, nor any Resolution passed for vesting the Funds on Mortgage, or encroaching on the Capital of the Library at any Meeting of the Committee at which fewer than five Members shall be present.

VII. And be it further enacted, That the Committee for the time being shall, and they are hereby directed and required to call, by Public Notice given for that purpose, a General Meeting of the Subscribers whenever they shall be required so to do by any requisition to that effect, specifying the object and purpose of the Meeting, and signed by not fewer than thirty Subscribers on any lawful day specified in such requisition, not being less than four days subsequent to the date of the transmission of such requisition to the Committee; and if no day shall be so specified, then on any day not more than three weeks subsequent to the date of such transmission as to the Committee shall seem fit. And when the Committee or the Librarian shall neglect or refuse to give any Public Notice, or to call any Meeting of the Subscribers which such Committee and Librarian are by the Provisions of this Ordinance respectively directed and required to give, or to call, then and in such case it shall and may be lawful for any five of the Subscribers to give any such Public Notice and to call such Meeting to be holden on any lawful day, not less than four days subsequent to the publication of the Notice calling the same.

VIII. And be it further enacted, That it shall and may be lawful for the Subscribers present at the Annual or any other General Meeting of the Subscribers to consider all proceedings which may have been taken, and all Regulations which may have been made and promulgated by the Committee during the period, which shall have intervened since the last General Meeting was holden, and by the votes of the majority of Subscribers then present, to approve, alter, and to annul the same as they shall see fit, as also to repeal or alter or amend any Regulations which shall have been passed or approved by any former General Meeting, and to make any new Regulation, for the management of the Library, or the Administration of the property and affairs thereof as they shall see fit: Provided always, that a notice that any such repeal, alteration, or amendment of any such existing Regulation as last mentioned, or that any such new Regulation as aforesaid, is to be proposed at such Meeting shall have been affixed to some conspicuous place within the Hall of the Library, for at least seven days previous to such Meeting.

IX. And be it further enacted, That the Treasurer of the Library, for the time being, shall immediately on entering upon the duties of his office and of receiving the balance of the Library Funds, open an account with the Discount Bank, and pay over to the Cashier thereof the said balance as well as all sums which he may hereafter receive on the Library account as soon as possible after receipt thereof, and it shall not be lawful for the said Treasurer to retain in his private possession any monies the property of the Library, under the penalty of thereby forfeiting his office and becoming liable to pay to the Committee for the benefit of the funds of the Library interest at the rate of 10 pCt. for and during the period such money shall be illegally retained by him, or to draw any part of the funds thereof from the Bank, except in making disbursements which shall have been previously sanctioned by a written Resolution of the Committee of which it shall be the duty of the Auditor to take due notice, and which disbursements shall be made by drawing checques on the said Bank, signed by the Treasurer and countersigned by the Chairman of the Committee for the time being: Provided always that nothing herein contained shall be construed to prevent the Committee from vesting such part of the Funds as may not be required for the immediate use of the Library in Mortgages on Houses or landed property, and at the legal rate of Interest a necessary condition of the Mortgage Bonds, being when Houses are so mortgaged that the said Houses shall be duly insured against accidents by fire;—and provided further, that no part of the Funds of the Library shall be applicable, or be applied to defray the expenses of any litigation whatever, save and except in cases in which it may have been necessary or proper to have recourse to legal proceedings for the recovery of debts due to the Library, or in defence of its just rights, and in which the Court before which such proceedings shall have been taken, shall expressly adjudge that such expenses shall be defrayed out of the Funds of the Library.

X. And be it further enacted, That the said Library shall remain open to the Public, at least Seven Hours during each day, in the Summer months, and Six Hours in the Winter months, except on Sundays and Holidays, or at other times, when it may be necessary to close the same for the purpose of alteration, repair or other reasonable cause, and all respectable Persons, even although they be not Subscribers, shall have free access thereto, at such hours, together with the use of the Books, Charts, or other publications of the Library of Reference, together with all other publications not required for immediate circulation: Provided, always that no Person who is not a Subscriber, shall have the right of demanding Books or other Works to be taken out of the Library, or of attending at the Meetings of the Subscribers, or of being a Member of, or of interfering with, the Committee, in their administration of the Affairs of the Library in any way whatever.

XI. And whereas the Public Library already contains many valuable Books and other works, which it has been deemed expedient to preserve as a Library of Reference, and which have already been classed and distinguished from those which when required shall be circulated amongst the Subscribers:

Be it therefore enacted, That the several Books Maps, and other Works, which previously to the passing of this Ordinance, shall have been classed as belonging to and placed in such Library of Reference, together with such other Books, Maps, and Works as may hereafter from time to time be added thereto in manner hereinafter mentioned, shall remain and be kept within the Library in all time to come for the purpose aforesaid, and shall not be put in circulation by any Committee, under pain of *ipso facto* forfeiting their office, and that the Committee for the time being, shall have the power of placing any other Books, Maps or Works in the said Library of Reference, provisionally until the next General Meeting of the Subscribers, who shall at such Meeting decide, whether the same shall be finally placed in the Library of Reference or not; and that it shall not be lawful for any Committee, nor for the Subscribers at any General Meeting, to remove from the Library of Reference and put in circulation any such Books, Maps, or other Works as shall at the passing of this Ordinance have been or shall hereafter in manner aforesaid finally be classed as belonging to and placed in the Library of Reference: Provided nevertheless, that the Committee shall have the power upon application in writing being made to them to lend out to any individual on special occasions under such conditions as they shall see fit any of the aforesaid works.

XII. And whereas by the Will of the late J. N. von Dessin, executed in the year 1761, a large and most valuable collection of Books was bequeathed in trust to the Consistory of the Dutch Reformed Church in Cape Town, to serve as the nucleus of a Public Library, and a certain annual sum was likewise so bequeathed in trust for its preservation and maintenance; and whereas the said Collection, known by the name of the "Dessinian Collection," was some years past removed from the immediate keeping of the said Consistory and placed in a separate apartment of the Building appropriated at that time for the reception of the Public Library, established under the Proclamation of the 20th March 1818, and it is desirable that the Dessinian Collection should still remain attached to and form part of the Public Library, subject however to certain separate Regulations for its management: Be it therefore enacted, that the said Dessinian Collection shall continue to be in a proper and commodious part of the Building which is now or may hereafter be appropriated for the reception of the Public Library, and separate and apart from the Books thereunto belonging, subject to the sole and entire management of a Committee of the said Consistory, who shall make as heretofore all such Regulations for its management as they shall deem requisite; provided the same do not interfere with the General Regulations for the management of the Public Library; and provided also, that such Regulations shall be notified to the Committee of Management at least ten days previous to their having force and effect; and the said Consistory shall continue to expend from the Funds under their separate trust, and independently of the Subscribers to the Library or their Office-Bearers, all such sums of money as they shall see fit to appropriate for the maintenance and augmentation of the valuable Collection committed to their charge, and shall have power to appoint at their own expense, if needful, a Librarian, to take the entire charge of the Dessinian Collection: Provided always, that nothing herein contained shall be construed to authorize the said Consistory or its Committee to interfere officially in any way with the management of the said Public Library, or the application of its Funds.

XIII. And be it further enacted, That in any Action which shall or may be brought, touching the matters aforesaid, or any of them, or in anywise relating to the said Public Library, by or against the Committee of the said Public Library for the time being, it shall and may be lawful for the said Committee to sue or be sued by the style and description of—"The Committee of Management for the Public Library of the Colony of the Cape of Good Hope."
